Special Services for Easter In City and County Churches

In observation of one of the most memorable events in the Christian world—the resurrection of Christ—residents of the city and county will turn out in great numbers to churches on Easter Sunday.

Each year Easter Sunday services attract the largest congregations of any. Indications are that this next Sunday will be no exception.

Special sunrise services to be held at five of the larger churches in the county will be the feature

of the commemoration of the resurrection.

The sunrise, or early morning services, will be held at the Grace Methodist, First Presbyterian, Jeffersonville Methodist, First Baptist and First Christian Churches.

In addition to the sunrise services other regular morning services are planned at these churches and other churches in the county, with the emphasis to be on Easter Day.

Easter Sunday services will pro-

vide thousands of county residents their opportunity to exhibit their Easter finery. The Easter parade here is expected to reach sizeable proportions if the weather is favorable.

Holy Week Services

Several services were held by churches this week as a preliminary to the climax of Holy Week—the Easter Sunday services.

Thursday night (tonight) the First Baptist Church planned to observe the Lord's Supper while

BETTING BIG SHOT GRILLED

'Lonely Hearts' Wife Is Found Slain

KENTON, Mar. 22—(P)—A "lonely hearts club" operator who got herself a husband through her own club and then sought to divorce him was slain yesterday.

Her husband, 57-year-old Chester B. Gregg, was to be charged with homicide today. He is a factory worker.

The woman, Lorain Alma Golliday Gregg, 46, died less than six hours after a shotgun blast struck her in the shoulder outside her home.

Sheriff Clarence Brown of Hardin County told of the "lonely hearts club," the divorce action, and the shooting.

The Greggs had been married only eight months.

The sheriff said Mrs. Gregg filed suit for divorce last Tuesday, charging extreme cruelty.

Gregg admitted the slaying, the sheriff said, and added when being placed under arrest, "I was going to kill myself, too, but you were

Gambler Carroll Balks Again at Going Before TV

Hearing Shifted From New York to Nation's Capital

WASHINGTON, March 22—(P)—James J. Carroll told Senate crime investigators today a \$200,000 a year gambling operation in east St. Louis, Ill., produced around \$750,000 gross profit in 1949.

Carroll denied he did business with bookmaker Frank Erickson of New York or that they were members of a nationwide "betting syndicate."

He also said he does not know New York racketeer Frank Costello or west coast gambler Mickey Cohen.

John Burling, associate counsel of the committee, then read from testimony Erickson gave another Senate committee last April. He noted that Erickson, in telling of his friendship with Carroll, said "we do business with one another."

Erickson is now in jail on a state conviction of violating gambling laws.

Conflicting Testimony

Asked about the apparent conflict of testimony, Carroll said "I do not do business directly with Mr. Erickson." He said Erickson "does business with Mr. Mooney."

This apparently was a reference to John Mooney of St. Louis. The committee has said Carroll has some part in Mooney's business operations.

Carroll said many, many people believe they are doing business with him when actually they are not.

"You mean they do it with Mooney?" Asked Burling.

"That's right," Carroll replied.

The committee's probing into operations was punctuated at one point by a demand from Senator Hunt (D-Wyo.) that top telephone company executives be called to tell what they know about the use of telephones for gambling operations.

Hunt said there was "no question" but that telephone company officials knew how their equipment was being used for bookmaking and other gambling operations.

Senator Tobey (R-N.H.) shouted a few minutes later that by accepting telegraph bets in certain states Western Union has "become an accessory after the fact" in illegal gambling.

"This committee is going to recommend putting a stop to the use of the telephone and Western Union in gambling," Tobey declared.

New York Hearing Ends

The committee shifted its hearings back to Washington after an eight day session in New York City which was still bringing political and other repercussions.

In New York, James Moran resigned as water commissioner under demands from Mayor Vincent R. Impellitteri. It is a \$15,000 a year lifetime job.

The mayor fired Moran as a result of testimony from John P. Crane, president of the Uniformed Firemen's Association, that he gave Moran \$55,000 as a "good will" gift.

Moran had denied it. Crane also testified he gave \$10,000 to then Mayor William O'Dwyer in 1949. O'Dwyer, now ambassador to Mexico, denied that.

Here in Washington, the AFL International Association of fire fighters demanded Crane resign as a vice president. President John P. Redmond gave him until noon tomorrow to get out of office or be removed.

Carroll, who modestly acknowledged that he has reputation as something of an "expert" on some

\$1,028,254 Estate Is Left by Shaw

LONDON, March 22—(P)—Playwright George Bernard Shaw, a pioneer British Socialist who hated taxes, left an estate valued at \$1,028,254.22 but reckoned after debts and taxes at \$330,840, his will and an accounting disclosed today.

The 14-page document directed part of the money be used for promoting a 40-letter alphabet which was one of the Irish wit's pet projects.

Shaw died last November in his little cottage at Ayot St. Lawrence at the age of 94.

City Is Pouring Money Into Chuck Holes to Keep Streets Passable

It's been a hard winter—especially hard on the streets of Washington C. H. and the city's pocket book.

Hundreds of dollars are being poured into chuck holes, with very little to show for it. But, it has to be done in this modern age of automobiles to keep the streets passable.

Movie Actors In Jam Again In Red Probe

WASHINGTON, March 22—(P)—The House un-American activities committee today put aside its budding Communism-in-Hollywood investigation until after Easter, when it expects to unearth more facts about infiltration of the film colony.

Yesterday, handsome Larry Parks, star of the movie "The Jolson Story," admitted he joined the Communist party 10 years ago in an idealistic search that "didn't work out." He quit the party in 1945, he said, when his interest "just petered out." Beyond that, he had little to tell.

But two other film figures faced possible contempt citations for refusal to answer questions about Communism in an uproarious finale to the all-day session.

They were academy award winner Gale Sondergard and actor Howard Da Silva.

Da Silva was partially successful in out-shouting members and drowning out the pounding of the chairman's gavel with criticism of the committee.

Miss Sondergard, whose husband, Herbert Biberman, recently completed a jail term for contempt of the committee in 1947, was more sedate but equally adamant in her refusal to be "tied in" with groups the committee asked her about.

Chairman Wood (D-Ga.) said it was "probable" the committee would consider contempt charges against the pair.

Crocodile's Menu Of Trash Fatal

CINCINNATI, March 22—(P)—Cleopatra, the crocodile from whose stomach bottles, rocks and an assortment of things were taken more than a year ago, died today at the Cincinnati Zoo.

She had been back at her old habits, an autopsy disclosed. Dr. Carl A. Pleuger said he found three soft drink bottles in Cleo's stomach, along with a small piece of brick and a stone.

He said death was caused by "traumatic gastritis," induced by the bottles.

Meanderings By Wash Fayette

Ohio's fair name has been spread over the face of the earth in a number of different ways. One of these ways came to light the other day when I dropped into the Fayette County Auto Club to get a license.

Howard Allen, secretary of the auto club, mentioned that a pair of Ohio license tags issued from the Fayette County office were placed on a French Peugeot auto.

The car, Allen explained, belonged to Col. (retired) Harry Daughters who was born and raised here. He was shipping the car to his wife's parents in France from his home in Colorado, and they stopped off here to get plates.

From here the auto was towed to New York, where it will go aboard a liner for the ocean trip.

If you happen to run across Ohio plates 583KT in your travels through France you'll know the car belongs to Mrs. Daughters' parents -- that is, if the plates are still being used.

Term in Prison Started by Hiss

Treason Conviction Upheld by Court

NEW YORK, March 22—(P)—Alger Hiss, one-time bright young star of President Roosevelt's New Deal, surrendered today to begin serving a five-year-prison term for perjury.

The 46-year-old former high state department official—his appeals to the higher courts rejected—gave himself up to Federal Judge Henry W. Goddard.

Hiss was convicted Jan. 21, 1950 on two counts of perjury. The conviction, in effect, branded him a liar and traitor who betrayed his country by turning over government secrets to Whittaker Chambers, admitted courier of a Communist spy ring.

The courtroom proceeding lasted less than half a minute.

Hiss was convicted after two trials, the first of which ended in a deadlocked jury.

Second Jury Believes

The second jury believed the startling story told by Chambers, the government's star witness who said the former government official turned over secret documents to him.

Chambers, who since has recanted Communism, clung stubbornly to his story throughout both drama-packed trials. Hiss, just as stubbornly, denied it.

Hiss entered government service in 1933. He rose quickly to become the right-hand man of Francis B. Sayre, assistant secretary of state.

He played a major role in the organization of the United Nations serving as secretary of the San Francisco Conference that saw the U. N. organized in 1945. He also was executive secretary of the Dumbarton Oaks Conference—the important convocation that helped pave the way for formation of the world peace organization.

A few months before the UN was organized, Hiss was tapped by President Roosevelt to accompany him as an advisor to the Yalta Conference.

Strike Now Threat To Meat Packers

CHICAGO, March 22—(P)—Officials of two big meat packing unions met today to discuss plans for a possible nationwide strike of more than 200,000 workers.

They also had for a study a wage hike offered by two major packers in an attempt to avert the walkout. The workers are free to strike after midnight Sunday, at the expiration of present wage agreements. One union said it has "advised" Midwest and southwest livestock producers and shippers not to ship cattle to Chicago because a strike is "imminent."

They were discovered when Potts served a court order after Maness' wife Lucille was granted a divorce.

Madison County Youngsters Send Cow to Europe Children

LONDON, March 22—(P)—"Easter Lily" will clomp up a gangplank shortly to sail for Europe. She's the gift of 900 Madison County kids who thought their European friends should taste milk from an Ohio cow.

The purebred Guernsey heifer once sported a price tag that read \$225. Pennies, nickels, and dimes fished out of blue jeans and red-leather purses made up the scuffed-shoe Marshall Plan that bought her.

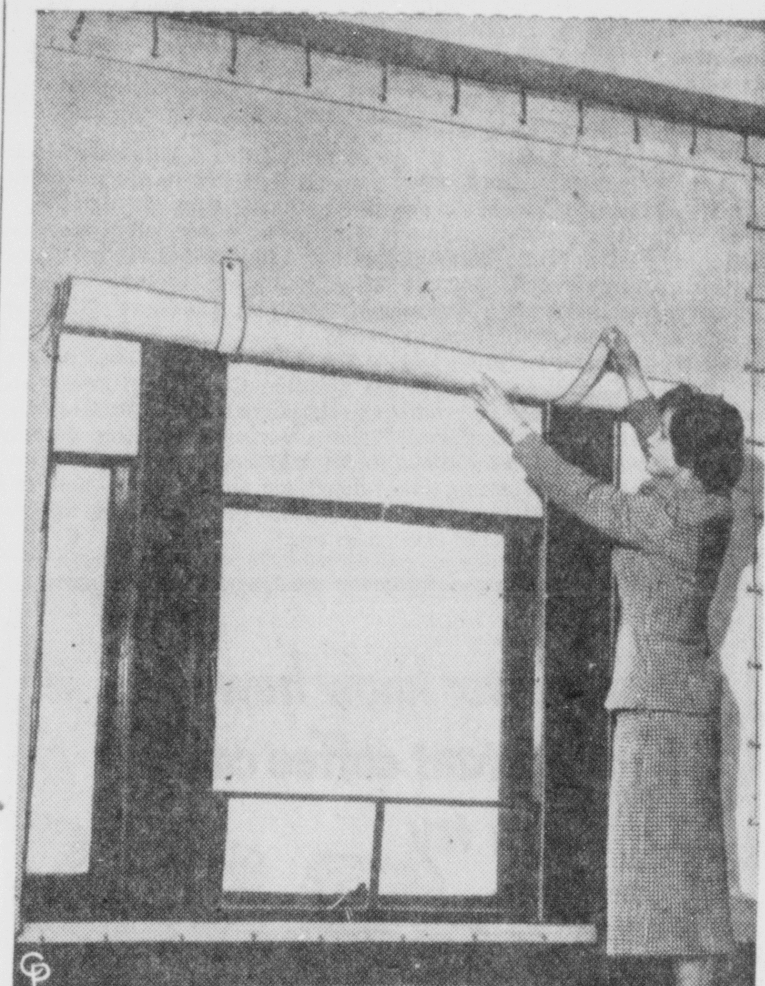

The project started some months ago. Miss Gertrude Von Reisen read a story to her religious education class in Madison County about how one American cow was keeping 20 Bulgarian children alive.

It was United Nations Week, and immediately hands shot in the air to ask teacher if hungry children overseas couldn't have a fine Madison County cow.

Two boys stayed after class the next day. They had some money to contribute toward the cow. Word spread to other religious education classes. A goal was set. Easter became the time for buying the cow.

One Madison County family sacrificed evening desserts so the

LATEST THING IN PROTECTION from possible atom bomb attacks is this new curtain, metalized with aluminum and lead, being placed on a New York City office building window by Joan Keegan, a secretary. The device would guard homes, apartments and buildings from flying glass, radioactive dust and blinding light from explosions. (International)

City Schools Get 'Out of the Red' For First Time in Last 13 Years

According to Fred Rost, business manager, the Washington C. H. schools finished in the black in 1950 for the first time in 13 years.

Rost, in a report on the financial condition of the schools, said there was a small cash balance at the end of the year, with no claims on it from outstanding notes.

That the school administration

finished up the year in the black is noteworthy, but is made more outstanding as Rost revealed that the year was started with a deficit of \$5,083.

By effecting certain economies, including a saving of \$2,765 in school costs, salaries, maintenance and operation, the schools were able to wind up the year with a balance of \$9,161.82, of which all but about \$100 was earmarked for payment of rehabilitation projects contracted for during 1950.

During 1950 the cost of rehabilitation projects amounted to almost \$23,000 but the school got about \$13,000 from the State School Plant Rehabilitation Department.

In 1951 the administration and school board will find that it must pay out \$15,000 more to teachers and employees during the year. The amount will cover pay and salary increases voted by the board.

With the cost of supplies, maintenance and repairs increasing constantly, strict economy and some curtailment will be necessary for the schools to break even by the end of 1951, Rost said.

It is the school board's aim, however, "to operate within expected income" during the year.

Train Is Derailed

LEBANON, March 22—(P)—Five cars and the engine tender of a Pennsylvania passenger train derailed today at nearby Kings Mills.

J. F. Henry, superintendent of the road in Cincinnati, said no one was injured.

GM War Contract

DETROIT, March 22—(P)—General Motors' Pontiac division is preparing to build \$57,500,000 worth of rockets and amphibious cargo carriers for the government.

Fame Comes through Television

NEW YORK, Mar. 22—(P)—Rudolph Halley, dynamic chief counsel of the Senate crime investigating committee, was almost unknown to the public prior to the New York hearing.

Today, millions are familiar with his facial expressions, inflections of voice and tenaciousness as an examiner because of intensive press, radio and television coverage.

The 37-year-old prosecutor at times, he has seemed aggres-

38th Parallel Battle Brews

Yank Patrol Runs into Trouble Near Line Where Reds Digging in

By OLEN CLEMENTS

TOKYO, Mar. 22—(P)—An American tank-infantry patrol with mine-hunting engineers today shot its way out of a Communist ambush less than three miles from the Red Korean border.

The tanks were moving up one side of the Pukhan River north of Chunchon and the infantry were plodding along the opposite bank when the Reds opened fire.

From high ground they poured machinegun, rifle and mortar fire on all sides of the patrol.

"They let us walk into the trap and then they sprang it," said Cpl. Charley Hamilton, Virginia City, Va. "Our tanks opened up on the hillsides with everything they had, but it didn't stop the Chinese."

The tanks pulled back to Chunchon, carrying the wounded.

Lt. Gen. Matthew B. Ridgway, commander of the U. S. Eighth Army, disclosed that it was U. S. First Cavalry troops who occupied Chunchon Wednesday.

Red Jet Shot Down

In the air, American Sabre jet fighters probably shot down a Russian-built MIG-15 jet and damaged another over northwest Korea.

Four F-86 Sabres drew six MIGs into combat at 26,000 feet Thursday just south of the Yalu River border city of Sinuiju.

The pilot who scored the probable kill said he fired two bursts into the Red jet, the second from only 200 feet. He said the MIG went into a violent spin.

Another American pilot caught a MIG in a turn and saw his bullets rip into the plane, which streaked north toward Manchuria.

An estimated 6,000 Reds were reported dug in six or seven miles north of Chunchon.

The bulk of the Communist troops, however, appeared to have pulled back north of parallel 38.

But in the west, the Reds were getting set for a strong stand south of the parallel.

Commies Massing

Field dispatches said some 60,000 Communist troops manned western defense positions in depth for 15 miles south of the border. These included two divisions of the Chinese Third Field Army, idle since the Hungnam action in December.

An Allied tank patrol ran into a hot fight Wednesday on the approaches to Uijongbu, north of Seoul.

The thrust north of Chunchon was the closest announced Allied approach in force to the Red Korean border during the current drive.

Patrols may have crossed the boundary.

AP Correspondent Leif Erickson reported from U. S. Eighth Army headquarters that Allied forces in Chunchon "appeared in position today (Thursday) to strike across the 38th parallel any time they choose to move after the withdrawing Reds across the political boundary."

Vandenberg Is 67

GRAND RAPIDS, Mich., Mar. 22—(P)—Sen. Arthur H. Vandenberg became 67 years old today still gravely ill at his home here.

The Michigan Republican, who has undergone a series of major operations in the last 17 months and suffered a setback Feb. 26, was reported slightly improved yesterday.

Halley Gets Crime Probe Spotlight

NEW YORK, Mar. 22—(P)—Rudolph Halley, dynamic chief counsel of the Senate crime investigating committee, was almost unknown to the public prior to the New York hearing.

Today, millions are familiar with his facial expressions, inflections of voice and tenaciousness as an examiner because of intensive press, radio and television coverage.

The 37-year-old prosecutor at times, he has seemed aggres-

sive in his insistence on an answer to a point of testimony.

In examination, Halley has been polite but firm with witnesses of acknowledged position and respectability and tough and implacable with professional hoodlums and racketeers.

His questioning has been such that witnesses sometimes found themselves involved in contradictions before they knew it.

Commissioners Reduce Hazards

Extinguishers Put Up in Court House

Work of carrying out recommendations made by Fire Chief George Hall to reduce fire hazards at the Court House are being carried out as rapidly as possible under the direction of the county commissioner.

The commissioners had initiated action to reduce the fire hazards before Chief Hall made his recommendation.

Additional fire extinguishers have been placed at convenient places to be handy in case of fire breaking out.

Changes in the wiring also are under way to meet recommendations of Fire Chief Hall, and other steps necessary to meet the recommendations will be taken as speedily as possible it is indicated.

Prompting the commissioners to reexamine the condition of the Court House and attendant fire hazards were recent fires which wiped out two Court Houses in this section of Ohio not many months ago.

Some of the most serious fire hazards exist in an attic of the Court House where old records have been stored.

Lonely Hearts Wife

(Continued from Page One)

Deputy Sheriff Verland Shaffer, who was cruising in the area, heard a police call and arrived within two minutes after Mrs. Gregg was shot.

Mrs. Gregg and her former husband, the late Lester Golliday, operated a "lonely hearts club" known as the Golliday Club in Columbus some years ago, the sheriff said.

When her husband died, she continued the club under his name. Later she was married and divorced, and still later she met Gregg through the club's correspondence.

The club is still operating. This personal advertisement appeared in today's Ohio State Journal in Columbus:

"Lonely? Get acquainted through correspondence. Lonely folks, all ages, white race only. Particulars free. Golliday Social Club, P. O. Box 190A, Kenton Ohio."

Cow Sent to Europe

(Continued from Page One)

Children could give to the fund. A nine-year-old girl staged a benefit show in her basement. A boy skipped lunch two days, saving 50 cents, then washed the family car for another 50 cents.

When the kids had raised \$200, a dairy improvement committee added \$25. The county agent helped locate "Easter Lily" and bought her from farmer Ben Timmons of West Jefferson.

Any day now—in the season of new hats and pleas for peace—"Easter Lily" will be checked through customs, courtesy of the interfaith heifer committee of the church world services of the National Council of Churches.

Blessed Events

Mr. and Mrs. James Lindsey, Route 2, Frankfort, are announcing the birth of a seven pound eight ounce son, in Memorial Hospital, Wednesday evening.

READ THE CLASSIFIED ADS.

Mainly About People

Mrs. Max Creamer was released from Memorial Hospital Thursday and returned to her home, near Jamestown.

Mrs. Clyde Palmer, 726 Washington Avenue, is a patient in Memorial Hospital, where she underwent surgery Thursday morning.

Mrs. George T. Combs, who underwent surgery in Memorial Hospital was released Thursday and returned to her home in Jeffersonville.

Mrs. Emma Campbell, a patient in the Winters Nursing Home, was admitted to Memorial Hospital, Wednesday evening for observation and treatment.

Mr. and Mrs. William Lucas, Jr., were moved Thursday morning by the Thompson Transfer from 604 Columbus Avenue to 217 North High Street, Hillsboro.

Mr. and Mrs. Ace Butcher, moved from Smith Street, Jeffersonville, to Buena Vista, Thursday morning. They were moved by the Thompson Transfer.

Mrs. Paul Chaffin and infant daughter, Patricia Kay, were released from Memorial Hospital Thursday and returned to their home, 402 East Temple Street.

Mrs. Homer Miller and infant daughter were discharged from Memorial Hospital, Thursday morning, and returned to their home, Route 3, Washington C. H.

David (Bus) Johns, who had been treated for a heart ailment in Memorial Hospital for several days, was released Thursday and taken to his home, 604 Gibbs Avenue.

James Watkins of Jeffersonville, who underwent observation, treatment and minor surgery in Memorial Hospital, was released Thursday and returned to his home.

Mrs. Herbert Rees and infant son, Allen Wilson, were released from Memorial Hospital, Thursday and taken to the home of Mrs. Rees' parents, Mr. and Mrs. H. M. McCurdy, on the Yeoman Road, in the Gerstner ambulance.

Pvt. James Moore, son of Mr. and Mrs. Willard Moore, has finished his basic training at Lackland Air Base, San Antonio, Texas, and is now taking a course at the base, in pharmacy, as a member of the medical group.

PTO Busy at Madison Mills

A nominating committee which will select officer candidates for the year was selected at a meeting of the Madison Mills PTO Wednesday night at the school.

The committee consists of Mrs. Carlton Belt, chairman, Mrs. Orville Clark, Mrs. Taylor Groff and Mrs. Forrest Fry.

Announcement was also made that a square dance will be held sometime in the near future. No date has been selected as yet.

Mrs. Jess Schlichter announced that plans were being completed for curtains for the girls' dressing room. They are to be made of material to be purchased by Mrs. Pearl Breakfield.

Taylor Groff announced that the electric scoreboard for the gymnasium has been completely installed and a screen put over it to protect it.

Announcement was made that Achievement Day will be held at 1:30 P. M. May 11. The speaker will be Rev. Paul Jones.

Mrs. Orville Clark, chairman of the basketball banquet, made a brief report on it.

The meeting was opened with the group singing "Alma Mater," with Charles Ruhl directing the band, with Mrs. Carlton Belt accompanying.

The treasurer reported that there was a balance of \$96 in the PTO fund.

Colonel Virgil Sexton, county civilian defense director, spoke on the county-wide program of civilian defense. He was introduced by Wilbur Snapp, chairman of the entertainment committee.

The refreshments committee for the evening consisted of Mr. and Mrs. Malcolm Dorn, Mr. and Mrs. Taylor Groff and Mrs. Paul Lindsey.

West Market Street, was released from Memorial Hospital Wednesday afternoon and returned to his home. The little boy was placed in an incubator at the time of birth about two weeks ago.

Pvt. Robert Thompson, son of Mr. and Mrs. Haskell Thompson, has completed his basic training at Lackland Air Force Base, San Antonio, Texas, and has been transferred to Lowry Field, Denver, Colorado, for a twelve week's course in technical photography.

Mr. and Mrs. Herbert Minshall, have sold their modern home on the Snowhill Road to Mr. and Mrs. Robert Slusser of Dayton. The Minshalls are residing on a farm in the New Martinsburg community and the Slussers are occupying their new home. The transaction was handled by Mac Dews Jr.

Driver Arrested

Police arrested Orville Dunlap, 18, London, Wednesday on a reckless operation charge, following speed of 55 miles an hour on Clinton Avenue. He posted \$15 bail.

FAYETTE COUNTY YARDS
WASHINGTON C. H.—Fayette Stock Yards—Top hogs, 190-220 lbs. \$21.10; sows \$18 down.

WASHINGTON C. H., March 22 (Union Stockyards Wednesday Sale)—Cattle receipts, 225 head. Market was active and all classes sold steadily with last week except stock cattle which were 50c-1 higher. No strictly choice cattle on sale. Several lots of good steers and heifers sold \$23-25.50. Choice kinds eligible to sell up to \$27. Medium grades \$20-23. Common and utility grades were scarce and sold \$20-23. Thin fleshed dairy breeds \$20-22. Good beef cows 25-30-32 with a few heifers up to \$30. Medium beef cows \$23-25. Canners and cutters \$20-23. Thin shelly kinds \$20 and down. Heavy bulls 25-30-30. Stock bulls 28-30-33. Several head stock calves were on sale and sold readily from \$34 to a top of \$2-10. Yearling steers, weight 600 to 700 \$22 to \$25. Calf receipts, 55 head. Top calf 40-40 to 42-30; seconds 38-60; mediums 36-70; thin and common \$30 down.

Hog receipts, 710 head. Top choats \$23.10; bulk of good choats \$21 to \$23.10; demand strong.

Fat hogs, 180-220 21.50; 220-240 21.25; 240-260 21; 260-280 20.75; 280-300 20.25; 300-350 19.50; 350-400 19.25; 400-450 19; 450-500 18; sows 18-10-19.80; all weights

eral prospective witnesses for hearings expected to run throughout the day.

One to be heard later was expected to be Jacob (Greasy Thumb) Guzik, reputed money-handler for Chicago's Capone mob.

The committee has long sought to question Guzik and issued an arrest warrant for him last month. Senate Sergeant-at-Arms Joseph Duke told reporters he had arranged for Guzik "to be delivered" to the committee for today's hearings.

and sold at auction; stags 15.50 down; Boars \$14-19.30.

Sheep receipts light.

CINCINNATI, Mar. 22—(U.S.D.A.)—(From information available at 10:15 a. m.)—Salable hogs 3,800; early sales barrows and gilts 60 lower than Wednesday; later deals 55 off; sows strong to 25 higher; strength on weight of offerings; good and choice 190-225 lb. butchers 21.25-21.50; 225-250 lbs \$21-21.25; 155 lb \$18; sows \$18-19.75; bulk 18.25-19.25; limited offering of sows.

Cattle 300; calves 100; limited early receipts slaughter cattle; mostly fully steady; few lots good and choice steers and heifers \$35; some mostly choice and around 36.50; utility and commercial \$25-31.50; canners and cutter cows in demand; strong; chiefly 20.50-24; utility and commercial \$24-26.50; one choice 1,635 lb bull \$22; good and choice 30.50-31.25; steady; choice commercial \$26-30; vealers steady; choice and prime \$37-40; commercial and good largely \$30-36; cull utility down to \$20; few medium and good stockers and feeder steers \$22-23; fully steady.

Sheep 300; meager early receipts; nominally steady; weak undertone for springers; few good 50 lb wool lambs \$30.

CHICAGO, March 22—(U.S.D.A.)—Salable hogs 8,000; fairly active, mostly steady; some early sales off more; sows weak to 25 lower; top 21.85 paid late; load or so 21.70-75; most good and choice 190-270 lbs 21.50-25; 280-320 lb \$21-30; few lots 160-180 lb \$20-21.25; good and choice sows under 450 lb \$19-20.25; 450-600 lbs \$18-19; good clearance.

Salable cattle 3,000; salable calves 300; steers over 1,000 lb and heifers over 800 lb fully steady; light weights both classes slow, steady to weak; cows opened steady; closed weak to fully taken off market; bulls strong to 25 higher; vealers steady; load prime 1-450 lb steers 41.25; low-prime 1,490 lb weights 40.50; good and choice steers \$34-37.75; commercial grade \$32-33.50; good and choice heifers 32.25-35; load good fed cows \$30-31.50; utility and commercial cows \$24-29; canners and commercial bulls 28.50-32; good to prime vealers \$34-36.

Sheep 1,000; all classes steady; about two loads high-good and good fed western lambs 42.50 to eastern shippers, the top; odd lots common

to medium natives \$31-33; few good natives to \$41; medium to good slaughter ewes \$22-24; cull and common kinds \$18-21.

Produce Market

CINCINNATI, March 22—(U.S.D.A.)—Eggs, cases included, U. S. consumer grade, A large 40-41; A medium 44-45; B large 38-40; B medium 42-43; extra large, none; current receipts 36-40.

Poultry, broilers and fryers, commercially grown 33-37; heavy hens 32-34; light 25-27; old roosters 16-18. Poultry, broilers and fryers, 1 lb prints 70; 1/2 lb prints 71. Butterfat, premium 61; regular 56. Potatoes, \$2.75-3.50.

Grain Market

CHICAGO, March 22—(U.S.D.A.)—Short covering rallied grain and soybean futures prices today after early weakness in most pits.

Wheat, corn and oats climbed more than a cent a bushel above the previous close in late dealings. Soybeans advanced more than 3 cents a bushel in one deferred delivery, although the nearby contracts held at the \$3.33 ceiling.

CASH GRAIN
CHICAGO, Mar. 22—(U.S.D.A.)—Cash wheat: none, Corn: No. 3 yellow 1.74 1/4; No. 4, 1.66-74; No. 5, 1.48-41. Oats: No. 1 heavy white 1.01; No. 1 extra heavy white 1.02 1/4; No. 2 heavy white 1.01. Barley: nominal; malting 1.60-85; feed 1.30-55. Soybeans: none.

Financial Market

NEW YORK, March 22—(U.S.D.A.)—Air lines soared out ahead of a rising stock market today in fairly active trading.

Air lines spread across the tape in large blocks at the opening and then continued more active than the rest of the market with gains running to nearly a dollar a share.

Sears Roebuck showed the most activity in the merchandising group with a fractional advance.

WASHINGTON'S LARGEST INDEPENDENT SUPER MARKET

Too Many Youngsters Run Afoul of the Law

There is growing national concern over what passes under the name of juvenile delinquency. Too many youngsters are running afoul of the law.

Fortunately for us in Fayette County this is generally regarded as being a minimum trouble in this locality. But there is too much of it even in a community like this.

Police officers in Washington C. H. and the sheriff's department and the juvenile court in Fayette County, all know of certain cases where juvenile delinquency has been apparent. Every county and every community has some of this. In many cases the parents are at fault.

Not only in Ohio but in many places there have been organized groups of well-meaning citizens, who are studying the problem, trying to find ways and means of turning restless teen-agers who are showing signs of becoming law breakers, in the direction of becoming good citizens.

Recently in one large city a judge lectured

a group of boys and girls who had been charged with delinquency, explaining to them why they should respect the law and the rights of others, for their own good.

After he had finished one youngster made this surprising inquiry: "Why should we respect the law when nobody in the government at Washington is respecting it?" That was an exaggeration, but the fact remains that the present generation is losing respect for the law because their elders are setting the example.

Scandals in high places, political manipulations common to every community, the increase of unpunished crime, all combine to give some youngsters the impression there is no need to respect the law.

Instead of calling it juvenile delinquency, it should be called by its right name—juvenile neglect. Police in a big city were forced to round up a score of children, none more than 14 years of age, for petty pilfering in stores. One little girl told the matron: "Mommy isn't home. She isn't ever home at night."

The charge of delinquency could hardly be sustained against such a child. Few children who have proper home environment become delinquents. Perhaps the problem has been approached from the wrong direction. Some judges are bringing parents up before them as well as the children. In fact this has been done in Fayette County in a few instances.

Gold Losses

During 1950 more than \$2,000,000,000 in gold flowed out of the United States. This loss is continuing. During a recent week foreign nations claimed \$51,000,000 in U. S. gold.

U. S. gold assets reached a high of \$24,427,000,000 in 1949 and now have declined to \$22,000,000,000.

It has been charged the Bank of France has been buying gold from the United States government at \$35 an ounce and selling it at \$45.

American citizens cannot buy gold, but the government is free to sell it to foreign nations—and these, apparently, can unload it at a fancy profit.

Parallel 38 Is Like Treadmill

By Hal Boyle

NEW YORK, (AP)—Recently in my mail there came a cartoon drawn by a young corporal in Korea.

The cartoon showed two elderly natives watching an American soldier cross the 38th parallel. The American soldier was bent with age and had a bear half-way to his knees.

"How did it all start?" asks one native.

"I don't remember," the second replies. "I was just a kid when they first crossed it."

This wry cartoon today probably reflects the feeling of the average American soldier toward crossing the 38th parallel again. It is with small sense of adventure that he now approaches that artificial border dividing North and South Korea. His attitude is more like

"this is where I came in."

That attitude is best summed up by the joking answer many veterans there give when young replacements ask them how long they've been in Korea: "Nobody'll tell me."

It is likely that patrol forays north of the 38th parallel have already been made again by the United Nations forces. But it is doubtful if the Eighth Army will press onward very far or very fast.

In two months it wrestled the initiative from the enemy and pushed them back to the fateful border where the war started last June 25. It has been a cautious offensive whose object was less to gain real estate than to kill as many Chinese and North Korean Reds as possible.

But from now on every mile the Reds are backed up tends to bring the two forces nearer equilibrium. The stalemate envisioned by General MacArthur appears to

be approaching.

The reason is simple. Up till now the enemy supply lines have been strung out and given Allied airpower fine targets. And the fighting had been concentrated in the narrow waist of the Korean peninsula where the outnumbered United Nations troops could mass their firepower.

But now the enemy is getting closer to his supply bases beyond the Manchurian border. And as the peninsula widens out to the Allied line will have to become thinner and thinner -- dangerously thinner. The same Allied forces that held a battleline of 125 miles cannot possibly hold a line of 500 to 700 miles -- yet that is the line it would have to hold if it drove to the Manchurian-Siberian border.

The two previous efforts to reach that border brought disaster. Only its superior mobility kept the Eighth Army from being destroyed.

Hal Boyle

Logic of War Prevention Policy

By George Sokolsky

Dean Acheson, in the course of his discussion before the Connally committee, said:

"So our first purpose -- and this is something we need to make absolutely clear to our friends in Europe -- is to deter the aggressors from attacking Europe. Our primary concern is not how to win a war after it gets started, but how to prevent it, and how to help Europe stay free in the meantime."

This seems to my poor reasoning, because no nation can go to war without feeling confident that it can win, and when steps are taken to prevent a war, they must be such as would convince the party of the second part that war does not pay.

The learned secretary of state must have caught himself tripping, for he answers himself:

"There are three deterrent factors to be considered. One is the retaliatory power now in our possession -- our capability of striking with air power against

the centers of aggression. Another is the reserve power which helps to convince the Russians that they could not win in the end. And finally, there are the integrated forces in being of the north Atlantic treaty nations."

Then he goes on to talk about the third deterrent, which is the one he likes, but it is obviously a side issue if the first one is not fully achieved. That means that we must be armed to the hilt and have a huge army before we can convince the Russians that war will not pay. Therefore, it is necessary to assess our capacities and those of our Allies and the will to fight of the entire group of 12 nations in the north Atlantic alliance. Unless there is a keen will to fight among these countries, what is there to deter Soviet Russia.

Surely the United States, a nation of 153,000,000, cannot alone produce the strength to fight an empire of 800,000,000 even with our advantage of production. The problem then comes down to ratios: what is the share that each of the members of the north Atlantic alliance will put up? Dean Acheson does not say.

But the secretary of state does say this:

"One reason why we cannot continue to rely on retaliatory air power as a sufficient deterrent is the effect of time. We have a substantial lead in air power and in atomic weapons. At the present moment, this may be the most powerful deterrent against aggression. But with the passage of time, even though we continue our advances in this field, the value of our lead diminishes."

Again, it is difficult to understand his reasoning. Why can we not maintain our "substantial lead in air power and in atomic weapons"? If, as he says, this has given us an advantage, why

not keep the advantage?

The answer, of course, is that the more money we spent on ground forces, the less we shall have to spend on the air force and atomic weapons. The supply of money is not unlimited. The 1951-52 budget will probably run as high as \$100,000,000,000. This comes during a period of distressing and frightening inflation.

The decision to use ground forces in Korea was an infantryman's error and has proved costly. Thus far, no evidence has been presented to Senator Connally's committee to prove that American ground forces are sufficient to deter Soviet Russia. Plenty of evidence has been presented to establish that an American air force is invaluable. I refer to General MacArthur's stalmate statement.

Dean Acheson's conclusion is: "In other words, the best use we can make of our present advantage in retaliatory air power, is to move ahead under this protective shield to build the balance of collective forces in western Europe that will continue to deter aggression after our atomic advantage has been diminished."

If what he calls the "protective shield" is all that has deterred Russia thus far, why does he not want to strengthen "the protective shield" but to substitute something else for it? This exercise in logic is hard to follow except that some men, having long lived with a good and faithful wife who helped to build the family fortune, discard the wife to spend her sacrifices upon some floozy. It is often done, but not with too much credit for the doer.

It is a serious matter for the country when the secretary of state speaks so casually about the expenditure of American lives.

Blood Pressure Readings

A recent study of case records on 15,706 people in industry gives some interesting facts. It was found that blood pressure readings--both the upper or systolic reading and the diastolic or lower--increase with age in both sexes.

The systolic pressure is the pressure in the arteries when the heart is contracted. The diastolic is the pressure when the heart is relaxed. The systolic pressure gradually gets higher up to the age of 50. After that time, it becomes higher at a more rapid rate.

The average blood pressure in this group was about 118 systolic and 73 diastolic at the age of 16 years for men, and increased to 142 systolic and 85 diastolic at the ages 60 to 64 years. In women, at 19 years of age, the average systolic was 115, and diastolic 71, and at the ages 60 to 64 years was 144 systolic and 85 diastolic. Up to 45 years of age the average blood pressure for men was higher than for women. After this age, there was but slight difference.

Increase in Weight

No particular relationship was found between height and the blood pressure. However, blood pressures are progressively higher with increase in weight, regardless of sex or age.

Blood pressures above the average are frequently seen in younger persons. In the groups studied, one-fifth between the ages of 20 to 29 had reading of 140 or over. High blood pressure is more common in men before 45 years of age, and more common

in women after the age of 45.

Low blood pressure is noted most frequently in young adults. Low blood pressure tends to improve with age. It is more frequent in women than in men.

Each individual's blood pressure must be interpreted in the light of his age, sex, activities, and many other factors.

"Manicure, sir?"

Diet and Health Blood Pressure Facts Upset Old Theories

By HERMAN N. BUNDESEN

Of recent years, many people have become blood pressure conscious and tend to worry about whether their own may not be too high or too low. Meanwhile, experts who have studied the question are beginning to realize that it is not possible to select one ideal blood pressure and set this up as a standard for all to meet.

As a matter of fact, it is a difficult matter to state just what a person's blood pressure should be. A figure which would be high for one individual might be perfectly normal for another.

The more the problem is investigated, the more likely it appears that the usually accepted limits for normal blood pressure are too narrow. In one case, for represent nothing more than a natural aging process; in another, on the other hand, it may reflect some disturbance of the heart. Thus, it becomes apparent that a blood pressure reading is not enough. It requires interpretation in the light of many other factors before we can be sure of its true meaning.

Blood Pressure Readings

A recent study of case records on 15,706 people in industry gives some interesting facts. It was found that blood pressure readings--both the upper or systolic reading and the diastolic or lower--increase with age in both sexes.

The systolic pressure is the pressure in the arteries when the heart is contracted. The diastolic is the pressure when the heart is relaxed. The systolic pressure gradually gets higher up to the age of 50. After that time, it becomes higher at a more rapid rate.

The average blood pressure in this group was about 118 systolic and 73 diastolic at the age of 16 years for men, and increased to 142 systolic and 85 diastolic at the ages 60 to 64 years. In women, at 19 years of age, the average systolic was 115, and diastolic 71, and at the ages 60 to 64 years was 144 systolic and 85 diastolic. Up to 45 years of age the average blood pressure for men was higher than for women. After this age, there was but slight difference.

Increase in Weight

No particular relationship was found between height and the blood pressure. However, blood pressures are progressively higher with increase in weight, regardless of sex or age.

Blood pressures above the average are frequently seen in younger persons. In the groups studied, one-fifth between the ages of 20 to 29 had reading of 140 or over. High blood pressure is more common in men before 45 years of age, and more common

in women after the age of 45.

Low blood pressure is noted most frequently in young adults. Low blood pressure tends to improve with age. It is more frequent in women than in men.

Each individual's blood pressure must be interpreted in the light of his age, sex, activities, and many other factors.

Lang Is Head Of 4-H in Ohio

COLUMBUS, March 22.—(AP)—C. C. Lang of Columbus is the new head of Ohio's 4-H clubs.

His appointment was announced at last night's session of farm and home week at Ohio State University.

Highlighting today's program was a talk on atom warfare by Alfred Garrett, Ohio State professor of chemistry.

Lang has been assistant head of the 4-H clubs since 1924. He succeeds W. H. Palmer of Columbus, effective March 31. Palmer has headed the group for 35 years.

Also at last night's session, Mrs. Martha Davis, who has served 4-H clubs in Pike County for the last 34 years, was recognized as the adviser with the longest record in Ohio. Advisers who have served for five years or more were honored.

R. H. Baker, OSU farm economist, chided farmers for following the same routine their fathers did. Better organization of farm chores will save time and effort and reduce fatigue, said Baker.

7 Children Die In Burning House

BRANTFORD, Ont., March 22.—(AP)—Seven children perished in a fire that raged through a frame house in the Six Nations Indian reservation yesterday.

Bodies of six children of Wilfred Henry, owner of the dwelling, and 16-year-old Arthur Crawford, a partially crippled cousin, were discovered in the ruins. The dead ranged in age from one to 16 years.

Marvin Henry, 14, escaped by jumping from an upstairs window. He said he had urged the others to follow him but none did.

A gas lamp hanging too close to the ceiling was blamed for the fire.

Letters To Editor

Washington C. H., O.
March 22, 1951

Editor

Record-Herald

Dear Sir:

Am enclosing a clipping from your Saturday edition regarding price of dressed chicken at your grocers.

While I am no longer a grocer it seems high time someone took the wind out of some of this wild figuring we are getting maligning the business men trying to make a living for themselves.

Let us take another look at these figures, where did feathers, feet, and entrails go. Does Dr. Smith buy these with his chicken?

Another item overlooked is loss in shipping and handling. Anyone who has handled chickens knows a four pound chicken will lose an average 4 ounces the first 24 hours after penning.

Taking Dr. Smith's own figures we now have them looking something like this:

Farmer received	28
Weight loss	2
Buyers cost	30
Buyers profit	1
Wholesalers cost	31
Transportation	2
Profit less drift	2
Cost to dresser	35
1-3 loss in dressing	12
Killing and dressing	6
Cost to grocer	53
Grocers profit	3
Total	56
We believe in being fair to all	

Grab Bag

The Answer, Quick

1. Who is the speaker of the United States House of Representatives?
2. For what do the initials DPA stand?
3. Who composed the Moonlight Sonata?
4. How many wheels are there on a jinnicksha?
5. Who was Moses' brother; his sister?

Watch Your Language

INDIGNANT — (in-DIG-nant) — adjective; affected with indignation; wrathful because of unworthy or unjust treatment, mean action, etc. Origin: Latin—Indignans, -antis, present participle of Indignari, to be indignant, disdain, from Indignus, unworthy.

Your Future

Your good sense should be able to overcome changeable, fluctuating conditions. A child born at this time may be a bit extravagant, but good-natured and a pleasant companion.

How'd You Make Out

1. Sam Rayburn of Texas.
2. Defense Production Administration.
3. Ludwig van Beethoven.
4. Two.
5. Aaron and Miriam, respectively.

parties concerned and have little patience with distorted figures to prove a point, however we think transportation figures here are a little high unless these were shipped quite a distance

(Signed)

O. T. Winter
(Editor's Note: The clipping referred to in Mr. Winter's letter appeared on the Record-Herald Farm Page under the heading "Who Gets Money You Spend for Dressed Chicken?" The story was received by the Record-Herald from the Associated Press and was developed from the answers given to that question to a group of newsmen and farm industry leaders by Dr. Marvin S. Smith, extension economist of Ohio State University. The story quoted Dr. Smith as saying the farmer gets 28 cents of the dressed chicken dollar; the produce buyer and shipper gets 3 cents; transportation 2 cents; wholesaler 3 cents; processor 6 cents and retailer 11 cents.)

The first application for a commercial television broadcast license was filed in 1939 by the Milwaukee, Wis., Journal, which now owns WTMJ-TV.

One of the country's first police radio stations began operation in New York in 1916, used to communicate with harbor patrol boats.

The Nation Today

By JAMES MARLOW
WASHINGTON, March 22—(AP)—There's still nothing definite about the plan proposed by Selective Service to give high school graduates draft-deferment for college if they can make 70 in a special test.

This plan was disclosed last week. Since then Selective Service has said nothing about it. Nor has it offered even an explanation of what is meant by "70" in a test. This is an attempt to give an explanation, obtained from a completely reliable source other than Selective Service.

It's generally agreed some youths should be deferred from the draft so they can complete their education in college and beyond because of this country's continuing need for a supply of college-trained men.

At present, under the draft law, only men 19 through 25 are draftable and many of those in school have had their induction postponed because they're in school.

But Congress at this moment is considering changes in the law, perhaps to permit drafting of youths as young as 18 or 18½ years. Final congressional decision on this hasn't been reached.

Under the law the president can lay down rules—it's called issuing a directive—about deferment of youths, such as those in school.

For many months many educators have been working with Maj. Gen. Lewis B. Hershey and his Selective Service people to find some fair and reasonable system for deferring men who want to go to college or are in.

Brain and willingness to work in school are the two main factors. So Hershey proposed that high school graduates be deferred for college if they can make 70 or more in a special test.

(Once they were in college, their continued deferment under this proposal would depend on their standing in their class.)

Hershey sent his recommendation to Charles E. Wilson, boss of mobilization, and Dr. Arthur Flemming, who serves under Wilson and is chairman of Wilson's special board on manpower policy. This board is made up of top government officials.

This board will meet Thursday to consider Hershey's recommendation. It probably will approve. If so, Wilson seems sure to approve. He'll tell Mr. Truman so Mr. Truman can issue an order putting it into effect.

But the president at this time may put only part of the Hershey recommendation into effect. That's the part providing for deferment of men already in college or graduate schools.

He may refrain from saying anything about deferring high school graduates, who want to go to college, if they make 70 or more in the special test—at least at this time.

Why? Because Congress hasn't acted finally on changing the law. For example: If it should let the law stand—that no one under 19 can be drafted—there'd be no reason to require a high school graduate under 19 to take the special test.

That's why it is still uncertain whether this part of Hershey's recommendation will be ordered into effect by Mr. Truman if he issues his directive on the rest of the Hershey recommendation any time soon.

But just what is this mark of "70"? Is it an intelligence test, an aptitude test, or what? Experts in college tests might explain it another way, but this is the layman's explanation:

It's simply a test to show whether a youth could be expected to do college work successfully.

Fire Toll Now Six; Drunk Is Blamed

COLUMBUS, March 22—(AP)—Benton McFarland, whose three sisters burned to death after a drunken man upset a kerosene stove in a rooming house, also died today. He was one year old.

The sisters—Judy, 8; Anna, 6, and Viola, 5—died March 9.

Two other persons lost their lives in the fire. They were Mrs. Sally Cosby, 35, proprietor of the Negro rooming house, and George Hugelley, 43, a roomer.

The children's white parents, Mr. and Mrs. Elijah McFarland, had placed them in the house temporarily.

Johnny Green, 25, had been charged with first degree murder. Police say it was he who upset the stove.

Convicted Bookies Go on Police List

LOS ANGELES, March 22—(AP)—The new police chief, William Parker, issued an order two weeks ago for all convicted bookmakers in Los Angeles to register at police headquarters.

The response was surprising and has created a problem. To date 1,027 persons have obeyed the order but now the police department has run out of forms for them to sign. Chief Parker said yesterday a call has gone to the printer for additional forms.

Rent Control Extender

WASHINGTON, March 22—(AP)—Congress has sent to President Truman a bill extending federal rent control in some 1,300 communities for 90 days past March 31.

Bankers Warned To Curb Credit

Government Control Looms as Threat

By SAM DAWSON
NEW YORK, March 22—(AP)—Back of today's plea to bankers and other lenders to police their loans lies a threat.

If they don't of their own accord make it harder for borrowers to build up speculative inventories, the banks face almost certain governmental attempts to regulate them further, in the name of fighting inflation.

One move will be to ask Congress to raise the ceilings on reserve requirements -- to let the Federal Reserve Board tie up more of each bank's cash.

A second move, and one the banks will dislike even more, may be to put actual curbs on the total amount of loans banks may make. That would put bankers in the same sort of strait jacket as a manufacturer whose use of scarce materials is limited.

These threats come at the same time that some Federal Reserve officials are grumbling that present installment credit curbs aren't high enough yet to hold down inflation.

Both the installment credit companies and spokesmen for banks are quick, however, to deny that their policies have had as much to do with bringing on inflation as their critics in Washington charge. The real culprit, if there is one, according to the credit men, is the buying public itself which took off on a buying spree after the Korean war started.

Installation Buying Up

The rush to buy on the cuff has sent installment credit to \$13 1/4 billion. But the president of a leading lender in this field, the CIT Finance Corp., says that the ratio of installment debt to personal income is around 6.5 percent, while back in 1940 it was 7.2 percent. He contends this shows that the nation's financial structure is in no danger from the volume of money that Americans own on the gadgets they are using. Their income is sufficient to justify it.

The earnings of CIT last year, incidentally, were \$30,787,608, and were topped by those of only one commercial bank, the Giant Bank of America. It gives an insight into how big the buying-on-time industry has become.

Consumer credit curbs apparently haven't bitten very deep yet into the business. In fact, William W. McCarthy, chairman of the American Bankers Association's committee on consumer credit, says they haven't worked at all and should be relaxed.

"Cars, refrigerators, television sets, ranges and materials for home repairs continue to be in good supply throughout the nation," McCarthy says. "In fact, inventories of cars and television sets in dealers' hands have risen. Such a situation calls for relaxing the terms of purchasing such articles on time."

But Different Moral

The same situation is noted today—but a different moral drawn --by the voluntary credit restraint committee recently set up by the Federal Reserve Board. It tells some 90,000 banks, insurance companies and investment houses:

"Inventories in the United States, particularly at wholesale and retail establishments, are at peak levels. An important part of this abnormal increase in inventories has been financed by borrowed money."

And the committee asks the 90,000 to refuse to make loans to carry abnormal inventories, and to prod borrowers who are overloaded to cut down these inventories "as promptly as is reasonably practical."

Whether the Federal Reserve's voluntary plan to curb inflationary loans will work any better with banks than the voluntary price freeze worked with manufacturers is doubtful.

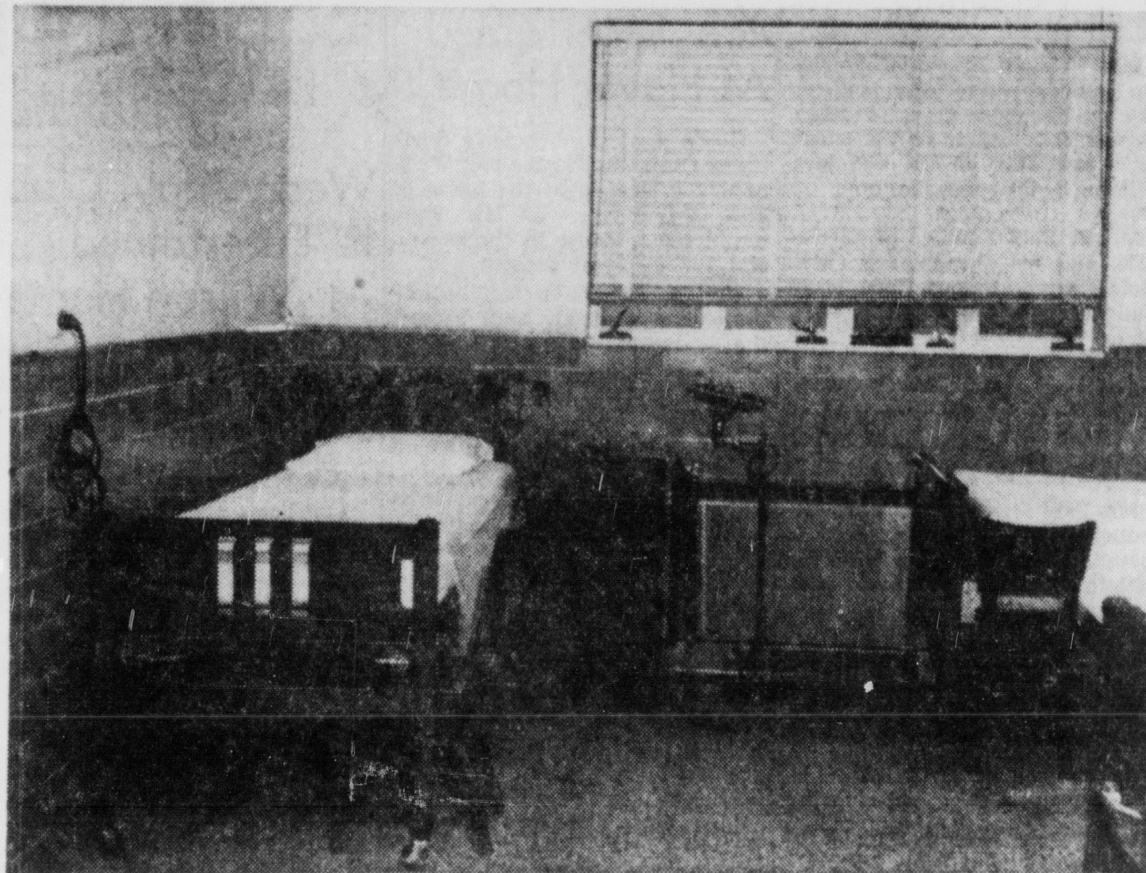

But if money lenders don't curb the extension of credit themselves there is a good chance that the government will try to do it on a mandatory basis. Business loans now are in excess of \$18½ billion, some \$5 billion more than a year ago, and compared with only \$7½ billion in 1946.

Bankers point out that business is a lot bigger, too. That means that it takes more credit to keep trade functioning. As long as business at all levels--production, distribution and retail -- continues at its accelerated pace, bankers say that clipping their lending powers will do more harm than good.

They say it would hamper production for defense and have little effect whatever on controlling inflation.

Even the ancient Egyptians made and ate white bread.

New Wards Added to Hospital Here

MORE ROOM FOR MEMORIAL HOSPITAL PATIENTS was added recently when two new wards were opened up at the institution. The men's ward (shown above) will accommodate four beds, although it provides space more adequately for three. Formerly the men's ward was the laboratory. Another room next door which formerly was the pharmacy and out-patient room has been converted to be a women's ward. It accommodates four beds. The pharmacy, laboratory and out-patient rooms are now located in the west wing of the hospital, originally designed for use by the health department. Even though more patient beds were added to the hospital there is still need for 20 additional beds. (Record-Herald photo)

Trash-dumping along Byroads Of County Irks Farm Woman

Dumping of trash along the side-roads of the county has at least one farm woman irritated -- so irritated, in fact, that she said she was going to make an appeal to Sheriff Orland Hays to see what he can do to put a stop to it.

While, her ire centered on a short stretch of the Rockwell Road, she said "I know this is not the only place in the county" where the roadsides are littered with odds and ends of just about everything not wanted.

The woman, who asked to remain anonymous, said she realized that it was somewhat of a task for the sheriff to patrol the hundreds of miles of byroads in the county against trash-dumpers, but still she expressed the hope that law enforcement authorities could do something.

In view of the admitted difficulties in trapping trash-dumpers in the act, she said she put most of her faith in remedying the situation in an appeal to the common decency and respect for the rights of others. An appeal through the Record-Herald, she thought, might have some good results.

The stretch of road that had her so wrought up is less than a mile long, she said. It runs through a woods and there are no houses close, she explained.

"Why, the place is just getting to be a fright," she declared.

The Rockwell Road is between

Brothers Inseparable In Death as in Life

EL MONTE, Calif., March 22—(AP)—Two elderly brothers who were inseparable all their lives, died within minutes of each other --and of the same cause, a heart attack.

When Ernest Edward Andrew, 76, retired book dealer, succumbed yesterday, Arthur Gibson Andrew, 78, ran for aid. Suddenly Arthur stumbled and fell dead.

Even the ancient Egyptians made and ate white bread.

When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exercising or exposure to cold. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Youths Here To Attend World Affairs Institute

Two Washington C. H. boys will be among the 400 high school delegates from four states who will join Cincinnati students for the fifth annual World Affairs Institute to be held in Cincinnati, March 30-31.

All visiting students are having their expenses paid by their hometown Rotary Clubs. Sponsored by the Washington C. H. Rotarians are Barry Smith and Fred Brandenburg. They will be accompanied to the institute by Dr. S. B. Smith, secretary of the Washington Rotary Club.

Most of the visiting delegates will be guests in private homes of prominent citizens.

Internationally-known experts representing the U. S. and several foreign nations are scheduled for the programs in the Netherland Plaza Hotel. Small discussion groups to talk over questions

Madison Mills and White Oak. The stretch of littered road described by the farm woman is a little closer to White Oak than Madison Mills. She "guessed" the trash-dumpers live in some nearby town or one of the two smaller settlements.

Scattered along the roadside, she said, were assorted tin cans, bottles, paper cartons and even loose papers.

Of one thing, however, there was no complaint. She said she had never seen parked cars of petters along the road.

Housework Easy Without Nagging Backache

Wear Jewelry Daringly, 'Skin Pin' Designer Says

By DOROTHY ROE
NEW YORK—Don't be afraid to wear your jewelry in unusual places now and then, advises Marianne Ostier, jewelry designer whose "skin pins" have created a national sensation.

Mrs. Ostier, a decorative red-head with creamy-white skin, recently started her public by appearing at a formal function with a \$25,000 diamond clip fastened to her bare shoulder. It stayed firmly in place all evening, and so intrigued the onlookers that people left the dance floor to gather round for a closer look.

The "skin pins" now done in palladium and precious stones, probably will be copied in the costume jewelry field soon, says Mrs. Ostier, and so we may expect to see bare-shoulder jewelry worn with bathing suits at our dressier beaches soon.

The designer has definite ideas about choosing jewelry to suit the personality and the type. Says she:

"The blue-eyed woman wears sapphires effectively, while amethysts or topaz stones blend well with the coloring of the brown-eyed girl."

"But everybody can wear diamonds—blondes, brunettes or redheads. For diamonds warm the heart."

The Ostiers came to America exactly ten years ago, after the Germans took over their native Austria. Oliver Ostier was court jeweler to King Zogu of Albania, and his father had been court jeweler to Emperor Franz Josef. Marianne had been a sculptor before her marriage into the

famous family of jewelers, and soon transferred her art to the designing of precious gems.

When the family business, including a fabulous collection of rubies, was seized by the invading Germans, the Ostiers fled, first to Albania, then to England, finally to the United States. They arrived in New York with few assets except personal jewelry. Oliver got a job in a war production plant, and Marianne started designing costume jewelry.

Then they rented half of a small office, and started making their own hand-fashioned jewelry designs. Their success was almost immediate. Now established at the top of their trade, the Ostiers are happy but still a little incredulous.

President's Budget Given First Slashes

WASHINGTON, Mar. 22—(P)—House budget-cutters cited a perfect batting average today as evidence of a firm intent to trim down President Truman's \$71,600,000,000 budget.

Cuts tentatively voted yesterday, however, were on relatively minor items.

The budget got its first test of the 82nd Congress when the House started consideration of a \$2,921,600,000 bill financing the treasury and postoffice departments for the fiscal year starting July 1.

The self-styled "economy bloc" composed of most Republicans and a large group of southern Democrats took three rapid shots at the bill and scored three direct hits.

Here's what they did:

1. Cut salary allowances for the secretary's office to \$2,400,000 from the \$2,468,000 recommended by the appropriations committee

and \$2,684,000 requested by the president. The vote was 111 to 48.

2. Cut bureau of accounts salary allowances to \$1,850,000. The president asked for \$2,095,000 and the committee recommended \$2,050,000. The vote was 107 to 54.

3. Cut \$450,000 from the division of disbursements salary allotment, leaving it at \$11,050,000 instead of the \$11,500,000 recommended by the committee and \$12,000,000 south by the president. It carried 112 to 57.

A GRIPPING STORY OF THE CATTLE DAYS of the early west, "Vengeance Valley," is to open a two-day run at the Fayette Theater here Sunday. Burt Lancaster, Grace Mills, Sally Forrest and John Ireland are shown above in a dramatic scene from the picture. Robert Walker and Joanne Dru also have prominent roles in the story. The picture done in Technicolor was filmed in the Colorado Rockies.

near Coshocton, O., that killed 33 persons.

In the wreck, the Pennsylvania Spirit of St. Louis rammed the rear of a troop train that had been stopped. The train carried National Guard troops from Pennsylvania.

In its annual report to stockholders the railroad said: "Every effort has been made by the railroad to provide assistance to the families of those killed, and full medical and hospital attention for those injured."

Railroad Is Sorry About 33 Deaths

PHILADELPHIA, March 22—(P)—The Pennsylvania Railroad officially expressed regret yesterday for the troop train wreck

TV Called Threat To Movie Theaters

DETROIT, March 22—(P)—Owners of movie theaters here told the city council yesterday television may force the closing of half Detroit's 181 theaters within two years.

TV already has made inroads of 50 percent in attendance at theaters, Irving Goldberg, spokesman for the group, declared.

Goldberg, discussing the owners' private ratings of TV shows and their effect on movie attendance, observed:

"The Kefauver crime hearings have been murder."

Hawaii grows 90 percent of the world's pineapple.

Baby Wets; Father Sparks with Belt

DAYTON, March 22—(P)—A Dayton man was charged with drunkenness and felonious assault last night after police said he admitted beating his 17-month-old stepdaughter with a belt because "she wet her pants."

Police Sgt. C. W. Coburn said Clarence Bush, 32, also pulled out hair from the child's head.

Bush was arrested after his wife told of the beating, which occurred Monday.

India Asks Russia For Help in Crisis

NEW DELHI, India, March 22—(P)—India has asked Russia if she can help ease India's food crisis by supplying grain but has

received no reply, Food Minister K. M. Munchi told parliament today.

India has appealed to several countries including the United States, which has a request for 2,000,000 tons of wheat under congressional consideration.

If all freight cars owned by U. S. railroads were made up in one train it would be about 14,000 miles long.

Forestry Camp Opened

COLUMBUS, March 22—(P)—Opening of a new prison forestry camp near Leesville, Carroll County, was announced today by State Welfare Director John H. Lamneck.

He said five inmates of Ohio Penitentiary were in the first group to go to the camp this week; and that 20 more would follow tomorrow.

Jeffersonville Church Youth Holds Meeting

The young people of the Jeffersonville Methodist Church held a St. Patrick's party in the church parlor.

Pre-Easter services were conducted by Rev. Forrest Moon, and plans were completed for the Easter breakfast to be held at 6:30 A. M., at the church, in connection with the Sunrise Service.

Refreshments were served, carrying out a green and white color scheme.

Helpers Class Plan Activities

Members of the Helpers Class of Maple Grove Church met at the home of Carlan Dawson, with fifteen young people present.

Bobby Leach led in the opening devotionals and Betty Rowland presided over the meeting.

The members are engaged in a Bible reading contest which started in February and is to end in May, when the losers will entertain the winners.

A skating party was also planned for the near future, and a paper drive is to be sponsored to replenish the treasury.

Refreshments were served by the young host, assisted by his mother, Mrs. Marion Dawson, and a round of games followed.

The next meeting will be held April 16 at the home of Mrs. Waldo Purdom.

Defense Priority Given to Buses

Increase in Fares
Also in Prospect

NEW YORK, March 22 —(P)—Bus and trolley fares are being pushed hard toward the 15 and 20 cent-a-ride point. And a whole new flock of defense workers will soon be trying to crowd into the vehicles.

But Transit executives, on safari to Washington today, say they now feel sure defense production officials are ready to permit nearly 8,000 new vehicles to be built this year, most of them of advanced design and many equipped to handle stretcher cases or other evacuation and civilian bombing problems. Transit men hope for the formal order next week.

Already they have won raw material priority status from the government putting transit cars and buses on a footing with freight cars and ore boats, in their call upon copper and aluminum. Other maintenance rulings will insure them against resorting to "bailing wire" repairs during the emergency, such as some companies resorted to in the last war.

More Comforts, too

The new buses, subway cars, and trolleys the industry seeks will be roomier, brighter, easier to handle than the ones you may be used to. Many are designed to be converted quickly into evacuation vehicles in case of bombings.

Transit executives conferring in Washington today assure their fellows here that permission will be given in the next few days for building 7,900 new vehicles for replacement purposes this year. During the first quarter the National Production Authority has permitted copper and aluminum use for part of this building plan and is reported ready to permit the whole program to go through.

Transit officials say the 7,900 is the minimum for replacement, but if the war gets all-out hot, and a curb is placed on use of private autos, so many war workers would be sent to the bus, trolley or subway, that 15,000 new vehicles would be needed, at a cost of \$300 million.

The new vehicles aren't going to help the far situation any, however. Fares are regulated in every community and state, but they're

Youths Here at Fort Knox, Ky.

PRIVATES RONALD W. DAVIS (LEFT) and John Detty, both of Washington C. H. are taking their basic training at Fort Knox, with the Third Armored Division, according to word received here. Both were taken into the service in January. Detty, 21, is the son of Rev. and Mrs. C. H. Detty while Davis is the son of Mr. and Mrs. Wilbur Davis. Detty served for three years with Company M, Ohio National Guard, and was drafted into the service during a period when he was no longer active with the Guard.

risen along with everything else. Practically everywhere the nickel fare is only a memory. The range now is pretty generally from 10 to 17 cents. Guy C. Hecker, executive manager of the American Transit Association, (which has about 1,400 operating companies as members, around one third of them municipally owned) says:

"To meet expenses it will be necessary to move 10-cent fares up to 15 cents in many cities and a few metropolitan centers may require a fare as high as 20 cents."

Wages Given Blame

He says that 60 percent of operating costs are accounted for by payrolls and the pressure for still higher wages is widespread. Hecker contends that in the last 10 years fares on the average have risen only 44 percent, while the average hourly earnings of transit workers have doubled and total operating costs have gone up 92 percent.

The Transit Association is looking to the defense program to give it a break, along with the headaches. The headaches will be the new throngs of defense-worker passengers, and the difficulty of getting new equipment to carry them. The break will be relief from the pressure of the industry's chief competitor, the private auto. Transit revenues have suf-

fered greatly from the great flow of autos off the assembly lines since the war, transit men admit.

The association gives these figures: In 1941 transit companies carried 14 billion riders. Gas and tire rationing sent 23 billion passengers to the transit companies in 1944 and 1945. But last year, in spite of a larger population, only 17 billion passengers were counted, because more and more people were driving their own cars to work.

The association estimates that if defense production turns into war production and auto use is cut back, the passenger total might climb to 27 billion by 1953. To take care of such a rush the present fleet of 90,000 vehicles would have to be expanded to 105,000 association men are telling Washington officials.

Garden Wall Falls; 13 Children Killed

MILAN, Italy, March 22—(P)—A high garden wall toppled over today on a group of 50 children seeking shelter from a sudden 85-mile-per hour wind, killing 13 and injuring 29 others. The age of the victims ranged from four to six and 12 of the dead were girls.

Rescue squads digging through the rubble recovered nine bodies. Four others died in hospitals.

The children were from the Sisters of Mercy Institute on the outskirts of Milan. About 300 had already left when the high winds struck. A group of about 50 sought shelter under the wall, which was newly built at the institute.

GALL BLADDER

SUFFERERS FIND CURE FOR MISERY DUE TO LACK OF HEALTHY BILE

Supply Rushed Here — Sufferers Rejoice
New relief for gallbladder sufferers lacking healthy bile is seen today in announcement of a wonderful preparation which acts with remarkable effect. Sufferers with agonizing colic, stomach and gallbladder misery due to lack of healthy bile now tell of remarkable results after using this medicine which has amazing power to stimulate flow of healthy bile. GALLUSIN is a very expensive medicine, but considering results, the \$3.00 it costs is only pennies per dose. GALLUSIN (caution, use only as directed) is sold with full money back guarantee by Downtown Drug Store, Washington Court House. Mail Orders Filled.

Pleas Are Made For State Funds

Treasury Surplus
Cut Now Wanted

COLUMBUS, March 22 —(P)—Cities, counties and townships have begun their fight to get \$36,000,000 in state aid over any surplus to be given them next June.

This is \$12,000,000 more than the budget offered the legislature by Gov. Frank J. Lausche provides for the next two years.

Nine mayors, county budget directors and township trustees recounted their government troubles to the House taxation committee in support of their pleas for \$18,000,000 minimum state aid for each of the next two years.

They cited rising costs of labor and materials, civil defense, heavy street repairs, maximum tax levels, deficits and other woes.

W. R. Kellogg, city manager of Cincinnati, said the Queen City would have to eliminate essential functions if they didn't get the full amount of state aid, plus \$6,500,000 surplus to be given local governments June 1. "I see no reason for a reduction," Kellogg said.

Mayor Charles Henderson, of Youngstown, president of the Ohio Association of Municipalities, cited rising costs and said less than \$18,000,000 a year "would be nothing but short of disastrous."

Thought It Was Promised

Charles Carran, city manager of east Cleveland speaking for 53 municipalities in Cuyahoga County said "we felt the granting of the surplus by the last legislature was a promise."

He said taking the surplus a-

way was "not fair and proper." These and other witnesses were discussing two bills now in the taxation committee.

One by Rep. Kenneth A. Robinson (R-Marion) calls for distribution of general revenue funds to local governments of \$18,000,000 each year of the next biennium. This would be in addition to the \$6,500,000 estimated available for surplus distribution next June.

Another bill by Rep. John C. Smith (D-Montgomery) would give the local governments \$12,000,000 the first year of the biennium and \$18,000,000 the second year. This would amount to a little more than \$18,000,000 each year, including the surplus.

Smith said this proposal had the approval of Governor Lausche.

Mayor Ollie Czelusta of Toledo; Budget Director John Hehir of Cuyahoga County; Hamilton County Commissioner Fred Morri; Mayor Thomas Nichols of Canton; Ed-

win R. Strasser of Cincinnati, vice president of the township trustees and clerk association of Ohio, and Henry Bruestle, city solicitor of Cincinnati, were other witnesses.

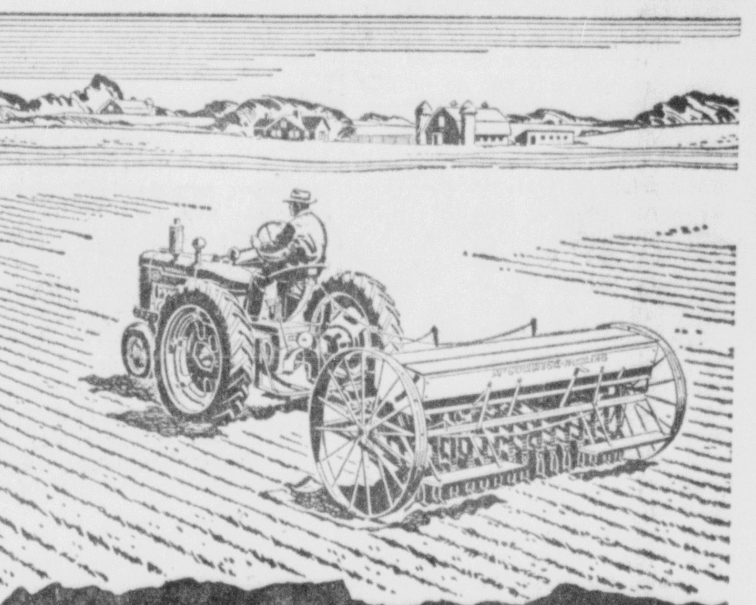

First GI Insurance Dividends in April

WASHINGTON, March 22—(P)—The Veterans Administration says it will put the first of about 8,000,000 special veterans in-

surance dividend checks in the mail in April.

The Veterans Administration announced yesterday that about \$685,000,000 will be paid in this dividend, covering three years from 1948 to 1951. Holders of policies with January anniversary dates will get their checks first.

Botanically, broccoli is a variety of cabbage.

There's ACCURACY Combined with LONG LIFE in a McCormick-Deering Grain Drill

The word "accuracy" applied to a McCormick-Deering Grain Drill means just this: exact metering of your seed to furnish a uniform supply in the quantity you want. And that feature stands out in both fluted and double-run feeds.

There's a wide variety of furrow openers, too—the right type for your soil conditions so that seed will always be placed at a

uniform depth. Talk about rugged construction and durability! All-steel hoppers and bridge-type main frames with reinforced corners take care of that . . . and hold feeding mechanisms in perfect alignment.

But don't just take our word for it. Come in and find out about the McCormick-Deering model with the seeding and fertilizing equipment you want.

Powered for thrills - Priced for thrift!

HERE, packed in 3,615 nimble pounds and 204.8 inches of over-all length, is the car marvel of '51. In the few short weeks since it started to roll off the assembly lines, it has written a bright new page in automotive history for the low-priced field.

What Buick engineers have done is come up with a brand-

new high-style body—new in every contour and dimension.

They've designed a brand-new, weight-saving frame, exclusively for this SPECIAL.

Then they've added the power-packed F-263 Fireball engine—which was new in the 1950 SUPER—and just wait till you see

what that does for this nimble performer.

There's a power-to-weight ratio that spells thrill and thrift in operation—at a first cost that's just a breath away from the lowest price level.

We'd like you to see and drive this newest Buick marvel—find out for yourself what a honey it is to handle, and what a cinch it is to buy. Why not drop in and see us the very first chance you get?

Equipment, accessories, trim and models are subject to change without notice.

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

No other car provides all this:

DYNAFLOW DRIVE—saves strain on driver and car
FIREBALL POWER—high-compression, valve-in-head engine gets more good from every drop of fuel
PUSH-BAR FOREFRONT—combines smart style and unsurpassed protection
WHITE-GLOW INSTRUMENTS—greater clarity at night
TORQUE-TUBE DRIVE—steadies ride, improves driving control

*Standard on Roadmaster, optional at extra cost on other Series.

4-WHEEL COIL SPRINGING—cushions ride, saves servicing costs
DUAL VENTILATION—outside air fed separately to right or left of front compartment
SELF-ENERGIZING BRAKES—hydraulic—multiply pedal-pressure five times at brake drum
DREAMLINE STYLING—tapered, car-length fenders, gleaming sweepers on most models
Plus: Self-locking luggage lid, Step-On parking brake, two-way ignition lock, Safety-Ride rims, Hi-Poised engine mounting, Body by Fisher

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

The Buick SPECIAL DeLuxe 2-door Sedan Model 46D illustrated above

Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities due to shipping charges. All prices subject to change without notice.

With a Buckeye in Congress

Official Corruption Charges Throw Capital into Turmoil

By CLARENCE J. BROWN

The House armed service committee late last week completed hearings on the administration-sponsored bill to extend and amend the Selective Service act. The measure will not be brought to the floor for a vote, however, until after the Easter recess of the House ends on April 2. The bill, as reported, extends the Selective Service act, and the draft under it which would otherwise expire in late June, for three years; provides for the lowering of the draft age to 18 years and six months, with no draftee to be sent into combat before he is 19 and has had six months of military service; extends the length of military service from the present 21 months to 26 months; and provides for a permanent universal military training program to follow the draft after the present war emergency is over. Congress has rejected universal military training legislation in the past. The UMT provision has been so written into the pending bill as to make it difficult to get a separate vote on establishing universal military training after the draft ends.

Last Wednesday the administration suffered one of its worst legislative defeats when, by a vote of 219 to 170, the House refused to consider the defense housing bill to permit unlimited construction of housing and community facilities in any section or city declared a defense area. The House decided sufficient authority and appropriations are now available to meet all defense housing needs within the foreseeable future.

Last week, by a vote of 227 to 187, the House rejected a measure to give the president new emergency powers to reorganize the government. Under the reorganization act of 1949 the president may now submit reorganization plans to the Congress for approval or rejection within 60 days—so the House voted no further reorganization powers were needed. The next day the House failed to reject the president's reorganization plan No. 1 to abolish the present five man board of the Reconstruction Finance Corporation and to name a single director in its place. Under the law two hundred and eighteen votes are needed to reject a reorganization plan. Two hundred and one voted for the rejection. The Republican policy committees of the House and Senate have gone on record favoring the complete abolishment of the Reconstruction Finance Corporation, the lending practices of which have been under investigation recently.

One day's headlines in a Washington newspaper: "Supreme court turns down Hiss appeal;" "Former state department official

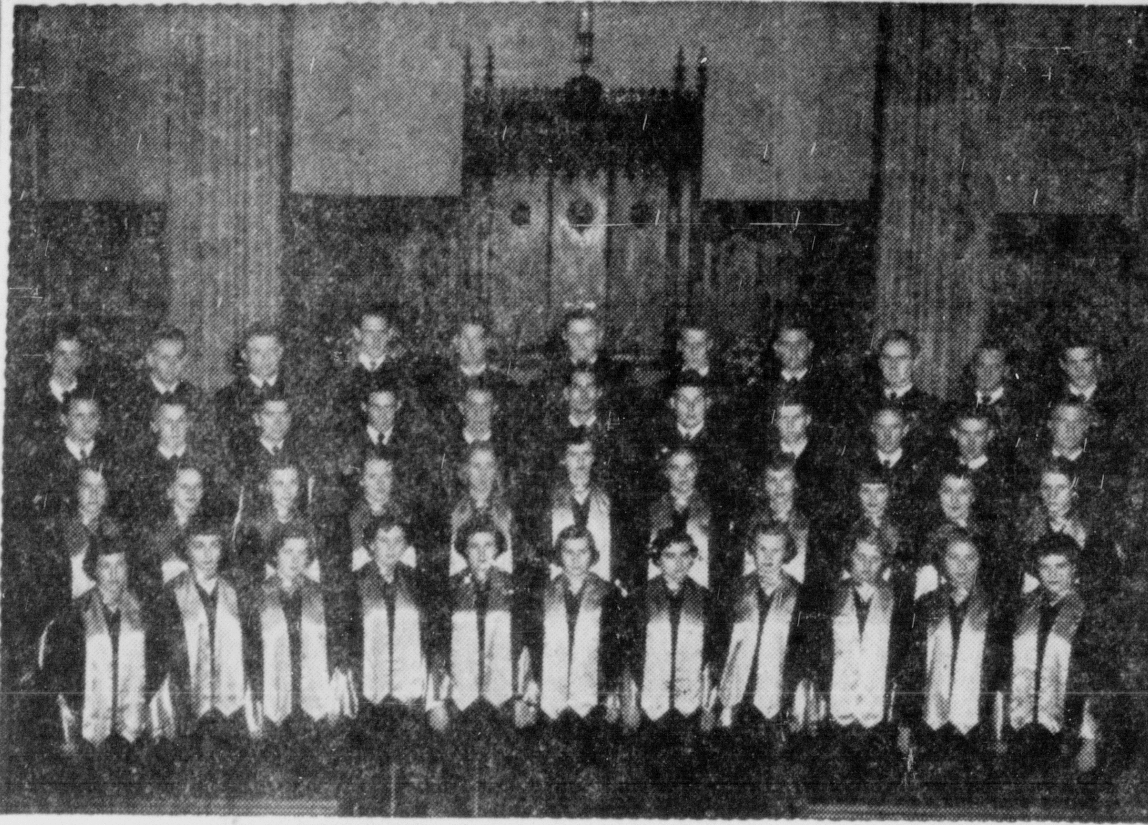

convicted of perjury in denying traitorous actions upheld;" "Hiss to begin five year prison term soon—Only hope presidential pardon;" "United States court of appeals studying Maragón;" "Confessed spy testifies bomb secrets given Russia;" "Greenglass testifies against Rosenberg and wife in treason trial;" "270 thousand dollar profit in ship deal;" "Former representative and White House favorite tells Senate committee of maritime commission transaction;" "Atomic Energy Commission dismisses official for tip-off to land speculator—76 thousand dollars made on deal;" "Senate crime committee hears testimony gambling syndicate backed New York mayoralty candidate;" Attorney general announces federal grand jury investigation of RFC activities."

The ways and means committee of the House will soon begin a probe of the Bureau of Internal Revenue's handling of tax returns of gamblers and racketeers. Soon after the investigation was ordered, tax liens were filed against two well known Washington gamblers and the estate of another. Representative Gore, (D-Tenn.), member of the committee, told Congress the government has lost billions in revenue through failure to require gamblers and racketeers to file full and proper tax returns.

President Truman has refused to dismiss the White House stenographer who received the \$9,540 natural pastel mink coat mentioned recently in the Senate investigation of the "sale of influence peddlers" in connection with Reconstruction Finance Corporation loans. The president is said to believe public indignation over the "influence peddlers" in Washington will gradually die out in the months ahead as other events attract public attention. However, each day brings more and more whispered stories of corruption in government.

Government officials are not much concerned over the recently announced high earnings of the General Motors Corporation for 1950. They point out that out of the \$7.5 billion business done by General Motors last year \$1.1 billion was paid in taxes to the federal government; \$1.9 billion was paid labor, from which the government collected nearly \$200 million of income tax; \$3.5 billion went to suppliers of materials, who paid nearly \$200 million tax on their profits; \$539 million went to 445 thousand stockholders, who in turn paid the government between \$150 and \$200 million dollars in income tax thereon. So of the \$7.5 billion taken in General Motors actually retained only \$295 million for plant expansion and for emergencies. With a \$71.6 billion dollar budget the federal government needs tax income. The larger the earnings of corporations and individuals, the more federal tax collected.

Franklin College Choir To Be Here

THE CHORUS CHOIR OF FRANKLIN COLLEGE (shown above) of Franklin, Ind., will include Washington C. H. in its tour of several states during the Easter vacation. The choir will sing at the First Presbyterian Church at 7:30 P. M. Monday.

The choir is directed by Prof. Guy Owen Baker, graduate of Westminster Choir College, Princeton, N. J. Prof. Baker was a tenor soloist with the Westminster choir, and he has appeared with some of the country's top symphony orchestras. Two exchange students are members of the choir this year—Joyce Tokita, from Yokohama, Japan, and Hans Wilhelm Dechert, from Germany. No admission will be charged for the concert, but a free will offering will be received.

Atomic Blasts At Eniwetok

WASHINGTON, March 22—(AP)—The Atomic Energy Commission indicated today it is now conducting new atomic blasts at Eniwetok.

The commission said in a statement a major project "is being carried out" at the super-secret Pacific Island test grounds.

"In order to assure the safety of vessels and aircraft operating in the central Pacific, only units of the (testing) task force are permitted within the danger area around Eniwetok Atoll," the statement added.

Asked directly if new atomic blast tests are being conducted, commission officials said they could add nothing to the statement.

While today's announcement did not flatly say the blasts were

actually underway, the language strongly indicated as much.

The announcement said the new series of tests include provisions for measuring the effects of atomic blasts "on structures and materials of various kinds" and declared:

"This information will be made available to the Civil Defense Administration."

The Monroe Doctrine was announced in President James Monroe's message to Congress on Dec. 2, 1823.

The word bravo formerly was commonly used in Italy to indicate a hired assassin.

FALSE TEETH

That Loosen

Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder on your plates. Holds false teeth more firmly so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

68 Years Old, Yet Now Climbs 155 Feet to Work on Scaffold

HADACOL Relieves the Cause of Nervousness and Weakness When Due to a Lack of Vitamins B₁, B₂, Niacin and Iron.

Seems like more and more folks are finding out every day that they have to keep themselves in tip-top condition to really stay on the ball as far as doing a good job is concerned. Mr. John

L. Napier, Route 1, Moselle, Mississippi, certainly found out that aches and pains, weakness and nervousness were interfering with his work as a bricklayer and carpenter.

But Mr. Napier heard how HADACOL was helping folks with such conditions that may have been due to deficiencies of Vitamins B₁, B₂, Iron and Niacin.

Here are his own words: "Before taking HADACOL, I was suffering with aches and pains for awhile. Then, came the time when I was weak and nervous. I am a carpenter and bricklayer. I also run a farm. I kept feeling bad and getting worse. Then I heard about HADACOL and immediately began taking it. After taking only one bottle, when I retired at 9 P.M. I would fall asleep immediately.

After the third bottle I went back to work, carpentering and laying bricks. Now, I climb as high as 155 feet and work all day on a scaffold. I have never felt so well in many years. I am 68 years of age. And, when there is no carpenter or brick work to do, I work on my farm, planting and harvesting my crops. Thanks to HADACOL."

There's a clue that may help you, if you are suffering from a lack of Vitamins B₁, B₂, Niacin and Iron. Why continue to suffer... why experiment... why let your distress drag you farther and farther down? For it is these very Vitamins and Minerals you may need that HADACOL supplies in a quantity greater than the minimum daily requirements. And this marvelous formula contains helpful quantities of Phosphorus and Calcium, too.

HADACOL builds up the hemoglobin content of the blood (when Iron is needed) to send these elements coursing, surging, throughout your body, to every body organ. Already dissolved, in a special liquid form, the elements are absorbed quickly and easily in your system. Carries a strict money-back guarantee.

Town House CRACKERS

by Strietmann

Its Great Name is Free!

If there were some way to strip a Cadillac of every identifying emblem it possesses, and judge it solely by the way it rides and handles and performs—it would still be quickly recognizable as the "Standard of the World."

But think what a Cadillac brings you in addition to the solid value of its engineering and performance and comfort and handling ease—the wonderful Cadillac name!

Perhaps in all the world, there is no inanimate object which speaks so eloquently as the Cadillac shield. It talks of background, of progress, and of faultless workmanship.

It proclaims a promise of years and years of the utmost motoring satisfaction. It speaks of its owner, and identifies him as a man of accomplishment and discrimination.

In fact, there is nothing good and wonderful a motor car can bring that isn't promised or implied by the beautiful Cadillac shield. And it speaks a universal language, which is understood and appreciated the wide world over.

And remember, you pay no extra penalty for the pride and pleasure of having this great and distinguished name. They come as a "special dividend" with every Cadillac car.

We deeply regret that we are unable to deliver new Cadillac cars without some delay. But the demand for the car is unprecedented—and much of the company's energies and materials are now being devoted to the needs of national security. Once the car is delivered into your hands, however, we know you'll agree that—patience never brought a richer reward.

Fayette County Eighth In Delinquent Taxes

As disclosed by statistics released by the Ohio Public Expenditure Council of Columbus, Fayette County has one of the lowest delinquency tax lists in Ohio.

The release shows that delinquent taxes and special assessments throughout the state after the final tax settlement in 1950 amounted to \$60,996,813.60.

These figures were announced by Edward W. Wolfe, executive director of the Ohio Public Expenditure Council.

Fayette County's share in the tremendous total amounted to only \$12,360.07.

Wolfe said: "While it may be true that some of this delinquency has since been collected and undoubtedly there will be some that is uncollectable, yet each year there is always a large amount in the state that can and should be collected."

"The proper public officials should use every legal means to collect these delinquencies and thereby materially aid their financially hard-pressed local governments, and at the same time free the current duplicate of these charges."

"In fairness to those who have paid their taxes, a more vigorous policy should be adopted for the enforcement of delinquent collections, otherwise new or additional taxes will be required."

Fayette Ranks Eighth
Fayette County ranks in eighth place in low delinquencies, and Shelby County, with only \$2,573.13, is first among all counties in small delinquencies.

Mercer County stands second with \$4,192.76, and Washington County third with \$7,580.01.

Then comes Van Wert, with \$8,451.74; Fulton, \$9,585.08; Auglaize, \$9,790.16; Morgan, \$11,984.41 and Fayette with \$12,360.07.

Cuyahoga County, which long has been noted for its great amount of delinquencies, leads all other counties with \$30,698,757.11.

Mahoning County was second with \$6,171,901.19, and Lucas County ranked third with \$5,451,196.49 in delinquent taxes and assessments.

In neighboring counties, Highland had \$45,597.56; Madison, \$22,659; Clinton, \$21,950.74.

'Nation's Icebox' Is Duck Resort

Winter in South Passed Up This Year

By JOHN KAMPS

FORT PECK, Mont., March 22 —(AP)—About 15,000 mallards found a home so warm here in the nation's icebox that they did not fly south with other ducks last winter.

While other ducks began their annual migration from the north country to the southland last fall, the 15,000 wallowed in warm water and got fat on grain hand-outs from the federal government.

The ducks took over the water flowing from tunnels below the Fort Peck Dam power plant here in frigid northeastern Montana. The water stays around 50 degrees above zero—some 90 degrees warmer than the air temperature at times. With seepage from the giant earthfill dam impounding the Missouri River, the water forms a stream lined with brush that gives the bird security.

Federal fish and wildlife men tried to make the reluctant mallards act like other ducks and join in the flights to warmer climes last December. Ducks just shouldn't stay here and freeze to

death in temperatures that still below zero for weeks at a time.

Noise bombs were dropped from airplanes. Each time the ducks returned as soon as the planes left and the racket died down. The authorities pinned their hopes on snow, which would cover the natural feed for ducks. Snow came. The ducks stayed on.

It became apparent in January that the ducks planned to stay for dinner. So Manager Fred Staunton of the Fort Peck Federal Game Range fed them a mixture of wheat and barley. There was plenty of grain. A boxcar shortage had plugged grain elevators and farmers were piling wheat and barley on the ground.

During the coldest days—when temperatures plunged to 30-40 below zero—about 40 bushels of grain were shoveled into Duck Creek daily.

The ducks which stayed for dinner and the winter are coming out of it in A-1 condition. Staun-

Field Freed Of Contempt

WASHINGTON, March 22—(AP)—Frederick Vanderbilt Field, New York millionaire, was freed today of contempt of Congress charges.

Federal Judge T. Alan Goldsborough, who presided at Field's trial without a jury, granted a defense motion for acquittal.

The judge held Field was within his constitutional rights in refusing to answer questions of a Senate foreign relations subcommittee on grounds his answers might incriminate him.

Field was charged with contemptuously refusing to answer 32 questions during an investigation

ton reports a few died from lead poisoning inflicted by hunters, but most of them survived an unusually cold Montana winter.

Sabina Cagers Are Honored

THREE SENIOR BOYS of the Sabina High School basketball team were presented trophies by the Haines Insurance Agency Tuesday night at the annual athletic banquet. Carl Stanforth, another senior on the team, was unable to be present since he was attending a National Guard drill. Shown in the photo, left to right, are Coach Beryl Carter, Wayne West, Harold Wilson and Bruce Barlow.

The four seniors on Sabina High School's basketball team today had lifelong reminders of their achievements in the sport and the fun they had.

Other members of the squad had their memories of the tributes paid them at the annual basketball banquet sponsored by the Sabina Lions Club. The cheerleaders also came in for their share of the honors.

Trophies, basketball player statuettes, were presented to Wayne West, Harold Wilson and Bruce Barlow during the banquet. Another was held back for Carl Stanforth, who was unable to get away from National Guard drill to attend the banquet.

Honors were passed out at the banquet to both the varsity and reserve squads and the cheerleaders while the more than 200 seated around the tables showed their appreciation of their exploits with thunderous applause. Varsity letters were awarded to Sam Wilson, Carl Conley, Fred Rockhold and Gene Flint.

RESERVE LETTERS were presented to Dan Palmer, Roger Hadley, Roger Case, Tom Foster, Edsel Davis, Charles Everman, Charles Harner, Jack Rittenhouse, Bill Smith, Sherrill Smith and

More Power Asked For Stabilization

WASHINGTON, March 22—(AP)—Economic Stabilizer Eric Johnston wants a sizeable bit of new anti-inflation powers including several changes in pricing provisions of the defense production act, informed officials said today.

Although Johnston believes the basic remedy is to reduce buying demand through higher taxes and stiffer credit control, he has sent a sheaf of recommendations on price and black market control to Charles E. Wilson, mobilization director.

Some are expected to show up in a presidential message to Congress next month on extension of the mobilization law due to expire June 30.

Because the final decision belongs to President Truman, Johnston has not made his views public.

McSweeney Gets Job

WASHINGTON, March 22—(AP)—Former Democratic Rep. John McSweeney of Wooster, O., is working for the Economic Stabilization Agency. McSweeney, who was defeated for re-election last November by Rep. Bow (R-Ohio), told a reporter today he is serving as a liaison officer between ESA and the joint congressional watchdog committee that supervises operation of the defense production act.

Services for Easter

(Continued from Page One)
the St. Colman Catholic Church planned to observe Holy Thursday with a ceremony at 7:30 o'clock tonight.

Thirty new members will be welcomed into the First Baptist Church at the special services there at 7:45 o'clock Thursday night. Passion Week Holy Communion services will be held on Maundy Thursday (today) at 7:30 P. M. at the Grace Church.

During Holy Week special noon day services have been held from 12:05 to 12:25 P. M. at the St. Andrew's Episcopal Church, with

ministers of the city participating. Union Good Friday services will be held from 12 noon until 2:45 P. M. Friday at the First Presbyterian Church. The services will be held every 20 minutes.

Listed below are the highlights of services which will be held on Sunday at churches in Washington C. H.:

First Christian

A sunrise service will be held at 6:30 A. M. in charge of the Christian Couples Class. The service will be largely meditative. There will be special music by the choir and other members of the church. The regular morning worship service will be held at 10:30 A. M. Rev. C. B. Tigner will be in charge. There will be special songs by the choir. During the evening a sermon and special music are scheduled at 7:30 o'clock.

First Presbyterian

An Easter sunrise service will be held at 7 A. M. sponsored by the Leadership Training Class. Brooks G. Trueblood will give the Easter message. Masons of Fayette County have a special invitation to attend the service, and a heavy turnout is anticipated. At 9:15 A. M. there will be a special Easter program in the church

school. Regular services will be held at 10:30 A. M.

ST. ANDREW'S EPISCOPAL

Holy Communion will be held at the St. Andrew's Episcopal Church at 8 A. M. with the sermon scheduled for 10:30 A. M. There will be songs by the junior and senior choirs singing together. The anthems will include "Christ Is Risen" by Carl Mueller, "Joy Fills the Morning" by Lotti and the chant "Christ Our Passover" by Tittomb. A communion service by George Oldroyd will also be sung. There will be special exercises for the children.

ST. COLMAN'S CATHOLIC

Two high masses will be held on Easter Sunday, one at 7:30 A. M. and the other at 9:30 A. M. The 9:30 A. M. mass will honor Mother Catherine on her 25th or Silver Jubilee year as a nun in the service of the Catholic Church. Following the 9:30 A. M. mass "open house" will be held at the convent for the public.

FIRST BAPTIST

The Easter program of the church will open with an early morning service at 7 o'clock in charge of members of the senior high Sunday school class, Mrs. Eugene Thompson, teacher.

Members of the class will present an Easter pageant, "Bearer of the Cross", as part of the worship service. Participating in the program are: Roger Chaney, James Moats, Robert Cameron, Richard McCarty, Patti Hurtt, Barbara Whitten and Carolyn Hurtt.

Following the early worship hour an Easter breakfast will be served at the church home by members of the social committee.

At the Sunday School service at 9:15 A. M., the boys and girls of the primary and kindergarten departments will present a brief Easter program in the church sanctuary.

The senior choir, under the direction of Mrs. Robert E. Willis, with Miss Audree Jean Scholl accompanist, will sing at the morning worship hour, 10:30 o'clock.

GRACE METHODIST

Grace Methodist Church will conduct two identical Easter morning services, according to the pastor, Rev. Allan W. Caley. The first service will be at 8 o'clock, with the full choir and sermon by

"Old at 40, 50, 60?"
—Man, You're Crazy

Forget your age! Thousands are peppy at 70, 77 "pepping up" with Outrex. Contains tonic for weak, run-down feeling due solely to body's lack of iron which many men and women call "old." Try Outrex Tonic Tablets for 10, 20, 30, 40, 50, 60, 70, 80, 90, 100, 110, 120, 130, 140, 150, 160, 170, 180, 190, 200, 210, 220, 230, 240, 250, 260, 270, 280, 290, 300, 310, 320, 330, 340, 350, 360, 370, 380, 390, 400, 410, 420, 430, 440, 450, 460, 470, 480, 490, 500, 510, 520, 530, 540, 550, 560, 570, 580, 590, 600, 610, 620, 630, 640, 650, 660, 670, 680, 690, 700, 710, 720, 730, 740, 750, 760, 770, 780, 790, 800, 810, 820, 830, 840, 850, 860, 870, 880, 890, 900, 910, 920, 930, 940, 950, 960, 970, 980, 990, 1000, 1010, 1020, 1030, 1040, 1050, 1060, 1070, 1080, 1090, 1100, 1110, 1120, 1130, 1140, 1150, 1160, 1170, 1180, 1190, 1200, 1210, 1220, 1230, 1240, 1250, 1260, 1270, 1280, 1290, 1300, 1310, 1320, 1330, 1340, 1350, 1360, 1370, 1380, 1390, 1400, 1410, 1420, 1430, 1440, 1450, 1460, 1470, 1480, 1490, 1500, 1510, 1520, 1530, 1540, 1550, 1560, 1570, 1580, 1590, 1600, 1610, 1620, 1630, 1640, 1650, 1660, 1670, 1680, 1690, 1700, 1710, 1720, 1730, 1740, 1750, 1760, 1770, 1780, 1790, the pastor. The second service will be held at 10:30 A. M., with reception of new members.

The Youth Fellowships will conduct a Sunrise service at 6 A. M. Sunday in the sanctuary. Following this service the young people will have breakfast together.

There will be a special service for infant baptism at 3:30 P. M. on Easter. All parents who wish to

present their children should call at the church office.

McNAIR PRESBYTERIAN

An Easter dawn service, to be held at 6:30 A. M., will be the feature of the Easter Sunday services at the McNair Church. Mrs. John Glenn of Bloomingburg will be the guest speaker. There will be special music, including a duet and a solo. Regular services won't be held until evening at

The Record-Herald Thurs., March 22, 1951 13
Washington C. H., Ohio

7:30 o'clock. Sunday school will be held at 9:30 A. M.

JEFFERSONVILLE METHODIST

The Jeffersonville Methodist Church will observe Easter with an Easter sunrise service at 6:30 A. M. Joseph Fisher, president of the Methodist Youth Fellowship, is in charge of the program, which

will be conducted by the fellowship group.

The program will consist of hymns, Easter readings, a trumpet duet, vocal solos, and organ music, the latter by Louise Fuels. Following the program, mothers of the members will serve breakfast in the church basement.

They're HERE! MORE POWERFUL than ever!

NEW DODGE "Job-Rated" TRUCKS

The trucks that do the most for you!

Here's what's NEW about power

You get more horsepower than ever in the new Dodge "Job-Rated" Trucks! Eight efficient engines—94 to 154 horsepower—with power increases up to 20%! You get the right power for your job with top economy. Yet, these new trucks are priced with the lowest!

Here's what's NEW about ease of handling

You can turn these new trucks sharper—in a smaller circle. Handling is easier because of new worm-and-roller steering gears, more convenient steering wheel angle, cross-steering, wide front tread, and short wheelbase.

Here's what's NEW about styling

Distinctive new lines, massive new grille, new two-tone cab trim, and new appointments make these the best-dressed trucks on the road! Lower hood lines make it easier to see more of the road ahead. More comfortable, redesigned seats, too!

Here's what's NEW about safety

Never before such safe, smooth, quiet truck brake action—thanks to new molded, tapered Cyclebond brake linings. (On trucks 1 1/2-ton and up, except air brake models.) Improved hand brake operates independently of service brakes.

Common Cold More Infectious Than Leprosy, Experts Reveal After Leper Is Found in Ohio

By KEN DAVIS
COLUMBUS, March 22 —(AP)—Gov. Frank J. Lausche, the Ohio Pardon and Parole Commission and Ohio Penitentiary officials worked feverishly to get a leper inmate out of prison the other day.

The governor commuted his sentence, the commission gave him a fast parole and penitentiary officials arranged to fly him to the Federal Leprosarium at Carville, La., March 10.

Actually, there wasn't any need for such speed, experts say. It was just that age-old superstition about leprosy working again.

Throughout the centuries leprosy has been called the unclean disease. The uninformed ran at the approach of a leper. Actually, the common cold is more infectious.

But, indicated Dr. C. R. Freeble, Jr., chief of the state health department's communicable disease division, prison authorities had to think of the effect on the morale of other prisoners.

"Why," said Dr. Freeble, "even if later examination had proved the man had hang nails we'd probably have had to send him some place anyway because we would never have convinced the other prisoners."

The leper was Ernest Goolsby of Akron. The 55-year-old Negro was sent Jan. 17 to Ohio penitentiary to begin serving a one to 20-year-term for shooting to wound. Routine Examination
He was given a routine physical examination after entering prison by William G. Grannis of Columbus, a junior medical student at Ohio State University.

There were no outward signs of leprosy except some minor changes in the skin of the legs and feet

Street Holes Filled

(Continued from Page One)
or blacktop on the stone . . . it's only added expense . . . it won't hold a day. When the ground is wet, and sometimes frozen, and the air is still cold, he declared, "there's nothing that will seal the fills."

Smith has assigned two trucks to almost steady work of doing nothing but fill the holes in the streets.

On each truck are two men armed with shovels. They just drive over the city, he said, and every time they come to a hole, they shovel in stone to fill it up.

All To Do Over Again
"In a couple of days," he said, "they'll have it all to do over again . . . it won't hold much longer."

Smith estimated that "about 350 loads" of crushed stone had been hauled from the Fayette Limestone quarries on the Leesburg Pike during the winter. Since each load weighs about six tons, that would make nearly 2,100 tons of material used to fill the holes in the streets--and the holes are still there.

The cost of the material alone was estimated at about \$2,500. Besides, there is the wear and tear on the equipment and the wages of hole-filling crews.

That's a big pile of crushed stone, Smith admitted, and right expensive, in view of the inescapable fact that the job of rebuilding the streets still remains to be done--and paid for.

By using city-owned trucks, Smith estimated that something like \$1,200--less the cost of gasoline and oil and tires--had been saved. That was about the only bright spot he could see in the picture.

Communist Checks Being Intensified

WASHINGTON, Mar. 22—(AP)—Senator Ferguson (R-Mich.) said today the Communists have set up rigid new "loyalty" standards for Red agents assigned to infiltrate federal agencies and America's defense plants.

The intense screening is a move to keep this country's counter-espionage agents from slipping into the Communist underground organization in the guise of friends, Ferguson declared.

The Michigan lawmaker is a member of the Senate's new internal security committee. The group is looking into reported Communist penetration of the armed forces, civilian government agencies, and defense plants.

Ferguson told a reporter the committee decided to start its inquiry after receiving confidential information from FBI Chief J. Edgar Hoover.

Tank or Bulldozer By 'chute Is Next

DAYTON, March 22—(AP)—The day may be near when the air force can drop a tank or bulldozer by parachute, the Air Materiel Command indicated today.

Parachute engineers said an 18,000-pound load rigged to six parachutes was dropped recently in Fort Bragg, N. C., from an altitude of about 3,000 feet. A C-119 Fairchild cargo plane was used.

It was the heaviest load ever parachuted from an airplane.

his own nerve tests, Grannis finally diagnosed leprosy -- technically known as Hansen's disease.

Goolsby had spent eight months in Crile Veterans Hospital without finding out he had leprosy.

Dr. Freeble confirmed Grannis' diagnosis and X-rays showed definite bone changes in the feet and lower legs.

Now Goolsby probably never will be well again, even though medical experts have gone a long way toward understanding the disease. The damage already done to his nervous system can never be repaired, said Dr. Freeble.

But, by treatment at the Ma-

rine Leper Hospital at Carville, Goolsby can hope for arresting of the disease so it will get no worse.

The Summit County Negro is the eighth case of leprosy reported in Ohio in 27 years. Rare but not unheard of is leprosy in Ohio. As a matter of fact, case No. 7--a Port Clinton farm laborer--accompanied Goolsby to Louisiana.

A couple of years ago two Steubenville residents -- a mother and her son--came up with leprosy. The mother was born in Italy and doctors believe she contracted it there. The son was born in Ohio and he apparently caught the disease from his mother.

Actually, this Steubenville boy may well be the only person to catch leprosy in Ohio. For instance Goolsby spent many years of his life in South Carolina, where the disease is more prevalent than in Ohio. The Port Clinton case--Mehor Cortez--spent his early life in Texas, where leprosy is endemic--or a constant threat.

Probably no other disease has as many screwy truths told about it. Leprosy is caused by a germ discovered by a scientist named Hansen--thus, Hansen's disease. The Leonard Wood Memorial, similar for leprosy to the National Foundation for Infantile

paralysis -- has spent a fortune and years trying to get the public to call the disease Hansen's rather than leprosy.

Still the old wives' tales circulate. Fingers are supposed to drop off, along with flesh. It isn't true. Nodular leprosy does develop some unpleasant skin lesions. But they aren't half as bad as you'd imagine.

As for nerve leprosy, which is what Goolsby has, there are few outward signs. There will be a gradually developing area of the body where feeling is gone.

With Goolsby it is the feet. He has little if any feeling in his feet, although he can move and

handle them. But, doctors took specimens of flesh from the legs without an anesthetic. Goolsby wouldn't know if a needle or a potato masher was pressed against his legs from the knees down--if he didn't look.

Remember the classic medical yarn about six William Osler, the father of modern medicine? It is said Sir William diagnosed leprosy on a close personal friend merely by sitting next to this friend at dinner one evening. The friend became so interested in talking he let a cigarette burn down to his fingers without noticing.

The skin changes somewhat and

so does bone because the functions of the body to that area are destroyed. Otherwise, you can't just look at a leper and tell--not unless you are Sir William Osler.

You'd have to be in close contact with a leper for years to get the disease. But, the general public still thinks the disease highly contagious.

Goolsby was snapped by news photographers as he came out of University Hospital a week before he was flown to Carville. Photographers wanted someone to pose with the man.

"Not me," said a guard, "I have hard enough time getting people to associate with me."

Rural Life Meet To Start Soon

Convention To Be Held at Wilmington

Wilmington College, in Wilmington will be the site of the ninth annual convention of the Rural Life Association, which begins Thursday, March 29 and which will last until March 31.

There are three fields of interest covered by this group—the rural church, the family farm and the rural community. The association interests itself with the problems that arise among these.

Members of the songfest group, which meets regularly at the home of Mr. and Mrs. Roy Wipert on the Wilmington Road, will give a demonstration on the activities of the group singers. They receive part of their support from the Rural Life Association.

The singers will give a number of varied selections both by the group as a whole and with soloists.

The first meeting of the group on March 29 will take place in the Congregational Church at Lees Creek and will start at 7:30 P. M. This is the only meeting which will not be held on the college campus.

Registration for the three-day meeting will get under way at 1 P. M., with the welcoming and greetings to start at 2 P. M.

Following the songfest demonstration, a discussion panel will consider the problems of the rural church and community.

Panels to Speak
The second day of the meeting is given to the farm group and will include a discussion on the subject "The Farm Family and Home Production". It is scheduled to start at 9:30 A. M.

At 1:15 P. M. Clarence McCormick, under secretary of agriculture, will speak on "The Family Farm and the Days Ahead." A question period will follow.

A picture on soil conservation, will be shown to the group at 3 P. M.

Tom Kennard, Ohio conservationist, and others will discuss, "Conserving People, Land and Water."

March 31 has been designated Community Day, and will open with a panel discussing the subject "The Small Community and Business," at 9:30 A. M.

Another panel will discuss the "School, College and Community" starting at 1:15 P. M. Mrs. Wipert, who heads the songfest group, will be on this panel.

At 3 P. M. the three day meeting will come to a close.

There will be a number of tours given during the conference to different places of interest.

Fire from Refuse Threatens Garage

Fire Chief George Hall responded to a call when the Leonard Korn garage on Gregg Street was threatened with fire which had spread to leaves while a neighbor was burning refuse Wednesday afternoon.

The fire blistered the paint on the garage, but it was extinguished before it did further damage. Chief Hall issued a warning against burning refuse too close to buildings, and urged citizens generally to exercise great care while burning refuse.

He asks that precautions be taken to prevent the fires from spreading.

Farm Bureau Council Discusses Production

Members of Union Township of Farm Bureau Council No. 4 met at the home of Mr. and Mrs. Gerald Stephenson Wednesday night and discussed means of improving farmland and producing fewer crops with the same acreage.

The government has also asked the farmers to increase their farm production with less manpower than they had before the Korean conflict. Joseph McFadden led the discussion.

The council plans to ask Paul Dougherty, manager of the Ohio Bell Telephone Co. office here, to show films.

There were eight members present. Mr. and Mrs. Franklin Coil, who recently moved to a home on Route 22 were introduced as new members.

Refreshments were served. The next meeting will be held April 18 at the home of Mr. and Mrs. James McWilliams.

Rural Protection Helps Cut Rates

Insurance Payments May Be Cut by Plan

Farmers in Fayette County whose farms are within three miles of rural fire departments may be eligible for a reduction in their insurance rates, it was brought out today by Ralph Penn, secretary of the Fayette County rural fire protection committee.

Before the insurance rates can be lowered it is necessary for the fire department to be accredited by the Ohio Inspection Bureau in Columbus.

In getting his insurance rates lowered, the farmer should make application with his insurance agent first. Next he should check to determine whether the fire department is accredited, and if it isn't, he should contact the department, get it on the accredited list. Certain requirements must be met before the department can be accredited.

Considerable progress has been made in getting rural fire protection spread throughout the county. All but three of the townships—Jasper, Wayne and Madison—have fire protection now, according to Warren Brannon, a member of the rural fire protection committee.

He listed the following telephone numbers to call in case of fire in the areas listed: Concord and Green townships, 44491; Bloomingburg, 77333; Jeffersonville, 66333; and Milledgeville, 2641.

provide data for the development of design criteria x x x.

The AEC also said effects "on structures and materials of various kinds" would be measured.

The air force in a separate statement said it would study the bomb's effects on all types of planes.

CONTRACTS AWARDED

WILMINGTON—Contracts for the Port William school building have been awarded to the McGraw Construction Co. of Louisville, Ky., at \$75,000. This includes general plumbing.

Mrs. Cocenour Dies Near Williamsport

Mrs. Grace May Cocenour, 61, died Wednesday night at the home of her son Purl near Williamsport. She had been ill for the past three years and had been seriously ill for the past nine months.

Born the daughter of Fred and Kate Steinhour Pfeifer, March 21, 1890, she moved to Williamsport in 1940. She was married in 1911 to James Cocenour, who survives along with the following: one son, Purl; two sisters, Mrs. Kate Holland and Mrs. C. Churchill, both of Aurora, Ill.; three brothers, Frank Pfeifer of Chillicothe, Leo of Joliet, Ill. and Clarence of Aurora, Ill. and two grandchildren. One sister and one brother preceded her in death.

Funeral services will be held at 2 P. M. Saturday at the Williamsport Methodist Church, with Rev. J. H. Sudlow, pastor, in charge.

Burial will be made in the Springlawn Cemetery in Williamsport under the direction of the Kirkpatrick and Son Funeral Home. Friends may call at the home of the son Purl.

Waditeaka Campfire Group Holds Party

Prizes were awarded to the winners of games played by the Waditeaka Campfire Girls at their meeting Wednesday evening in the First Baptist Church.

Following a short business meeting, the girls had an Easter party and played games.

Winners of the prizes were: Donna Phillips, Sally Dearing and Nanette Edgington. After the games, refreshments were served. The next meeting will be Wednesday evening March 28 at the church.

NEW 4-H CAMP
HILLSBORO — The Highland County 4-H Clubs voted to join the Jackson County Extension Camp, to be a five county project at Canters' Cave.

Robert H. Schryver Funeral Saturday

Funeral services for Robert H. Schryver, 77, native of Mt. Sterling, who had many friends in Fayette County, will be held Saturday at 2 P. M. at the Snyder Funeral Home in Mt. Sterling. Interment will be made in the family lot in the Mt. Sterling Cemetery.

Mr. Schryver died suddenly at the Chittenden Hotel in Columbus Tuesday night. Mrs. Schryver, sister of Miss Lillie Henkle, of Washington C. H., died in 1946.

He is survived by two sons, Daniel and Martin, both of Dayton; two daughters, Mrs. Harry E. Stahl, Birmingham, Mich., and Mrs. Ray Warren, Shaker Heights; two sisters, Miss Florence Schryver, Columbus, and Mrs. Omer Waldo, also of Columbus. Seven grandchildren also survive.

Mr. Schryver formerly was president of The First National Bank in Mt. Sterling and later was affiliated with the Citizens National Bank of Columbus.

He was prominent in Masonic circles, and was formerly president of the Columbus Chamber of Commerce.

Friends may call at the funeral home in Mt. Sterling at any time.

VFW Auxiliary Plans To Hold Poppy Sale

The VFW Auxiliary met in Memorial Hall Wednesday night to make plans for the annual poppy sale. The auxiliary also voted a substantial sum for the Red Cross and Easter Seal campaign. Installation of officers will be held April 4, at the next meeting.

THERAPIST EMPLOYED
CHILLICOTHE — Miss Ruth Hansen, Billings, Montana, a physical therapist trained at Harvard University, will be here in May to work with handicapped children here and at Portsmouth.

Easter Greetings!

The earliest Easter of the century and can not fall so early again until after the year 2,000.

When we think of Easter we think of flowers and what could be more appropriate for such a sacred day than lovely fragrant flowers? We have a fine assortment of lovely potted plants, consisting of: Lilies, Hydrangeas, Azalas, Daffodils, Hyacinths, Tulips, Violets and novelties. Also corsages nicely tailored and modestly priced. Open Friday and Saturday evenings and Sunday.
